Product Overview

Mecer 500W 80+ energy star 6.0 Universal ATX 2.2 (SABS) Power Supply, 5 SATA connectors, 1 x 4 + 4 pin EPS CPU connectors, 2 x 6 + 2 pin PCI-e PCI connectors, 1 x 20 + 4 pin ATX Motherboard connectors, 2 molex connectors, 1 x floppy floppy connectors, 80 Plus Certified

Specifications

Overview:

The CWT 500W power supply with five SATA connectors are an excellent choice for basic system builds and desktop PC computer upgrades. The 500W power supplies by CWT are available with five or seven SATA connectors. These power supplies include features that are normally found only on premium power supplies but with CWT you can have this for a competitive price.

Features:

- **Reliable and Compatible-** The CWT 500W is built and tested to strict standards for an excellent working power supply that enables trouble-free installation and a smooth operation.
- **Professional Looking-** Everything is black, the all black finish, with black cables and black connectors offer your PC system a high - tech look.
- **Low Noise-** 80 Plus certified efficiency and a clever fan design enables very little or no detectable fan noise during regular operation.
- **Long Connector Cables-** Long connector cables make this power supply suitable for installation even if you are trying to build in a full-tower chassis and with plenty of cable choices allows you to power multiple components and storage devices.
- **120mm, Thermally Controlled Fan-** Once your CWT PSU is installed you don't need to look at it again. With the thermally controlled fan makes this power supply virtually silent and with the large-diameter the noise is reduced even when you are pushing your system to the limit.
