## Specifications

### About this product

The Hisense Flex Boom 80W Portable Bluetooth Speaker delivers powerful wireless audio with enhanced bass, a two-speaker system and dual passive radiators for rich, punchy sound. Designed for indoor and outdoor entertainment, it features IP67 water and dust resistance, up to 20 hours of battery playback, Bluetooth connectivity, Auracast and True Wireless Stereo (TWS) pairing. With hands-free calling, multiple EQ sound modes and USB-C charging, this portable speaker is ready for music at home, parties and outdoor adventures. Buy the Hisense Flex Boom 80W Bluetooth Speaker from our online store and enjoy powerful portable sound wherever you go in South Africa.

### Overview Summary

**Hisense Flex Boom 80W Portable Bluetooth Speaker**

Enjoy powerful portable audio with the Hisense Flex Boom 80W Bluetooth Speaker. Designed for music enthusiasts who want impressive sound in a portable format, this speaker features a two-speaker audio system and dual passive radiators that deliver clear high frequencies and enhanced bass. With up to 80W maximum audio output, it provides an engaging listening experience for music, entertainment and social gatherings.

Built for convenience and outdoor entertainment, the Hisense Flex Boom features IP67 water and dust resistance and offers up to 20 hours of playback on a full charge under specified testing conditions. Its USB-C charging supports quick charging, providing up to 2 hours of playback from just 10 minutes of charging. Auracast and TWS pairing allow compatible speakers to be connected for expanded audio experiences, while hands-free phone answering makes taking calls convenient.

Additional features include six sound modes, Bass Boost, built-in FM radio, a power bank function and ConnectLife app support. Whether enjoying music at home, entertaining guests, travelling or spending time outdoors, the Hisense Flex Boom combines portable convenience with powerful sound and versatile connectivity.

**Performance tier:**High-performance portable Bluetooth speaker

**Uses:**Music streaming, outdoor entertainment, parties, home audio, travel, camping, social gatherings, hands-free phone calls, portable music playback

### Description

The Hisense Flex Boom 80W Portable Bluetooth Speaker is designed to bring powerful wireless entertainment to your home and outdoor activities. Combining a portable design with an advanced two-speaker audio system, it delivers up to 80W of maximum audio output for an engaging listening experience. Its tweeter and woofer work alongside dual passive radiators to produce clear high frequencies and enhanced low-frequency bass, making it suitable for a wide range of music genres and

entertainment environments.

**Powerful sound with enhanced bass**

Enjoy music with improved low-frequency performance through the integrated Bass Boost feature and dual passive radiators. The speaker offers six sound modes: Music, Relax, Outdoor, Party, Vocal and Custom. These modes allow users to select an audio profile suited to different listening environments and entertainment preferences.

**Portable entertainment with extended battery life**

The built-in rechargeable battery provides up to 20 hours of playback under specified testing conditions. USB-C charging makes recharging convenient, while quick charging provides up to 2 hours of playback from a 10-minute charge. A full charge takes approximately 3 hours under the manufacturer's stated conditions.

**Designed for outdoor use**

With an IP67 water and dust resistance rating, the Hisense Flex Boom is designed to withstand dust exposure and immersion in water under the conditions defined by its IP rating. This makes it a practical audio companion for outdoor activities, beach outings, camping and entertainment around the pool. Its portable design and dual-way carrying strap make transportation convenient.

**Flexible wireless connectivity**

Bluetooth connectivity allows compatible smartphones, tablets and other wireless audio devices to stream music directly to the speaker. Auracast enables compatible audio sharing, while True Wireless Stereo (TWS) pairing allows two compatible speakers to be connected for a stereo listening experience.

**More than just a Bluetooth speaker**

The Hisense Flex Boom also supports hands-free phone answering, built-in FM radio and a power bank function for added convenience. The ConnectLife application provides additional sound customisation options. With its combination of portable audio performance, connectivity and outdoor-ready protection, the Hisense Flex Boom is a versatile speaker for everyday entertainment.

## Features

**Up to 80W maximum audio output**

Enjoy powerful portable sound with up to 80W maximum audio output, designed to deliver an engaging listening experience for music and entertainment.

**Two-speaker audio system**

The integrated tweeter and woofer work together to reproduce high and low audio frequencies, while the dual passive radiators help enhance bass performance.

**Bass Boost technology**

Enhance low-frequency audio for deeper, punchier bass when listening to music and other entertainment content.

**Up to 20 hours of playback**

The rechargeable battery provides up to 20 hours of music playback under specified test conditions, making it suitable for extended listening sessions.

**IP67 water and dust resistance**

The IP67-rated design provides protection against dust and water exposure under specified testing conditions, making the speaker suitable for outdoor entertainment.

**Bluetooth wireless connectivity**

Connect compatible wireless devices to stream music without requiring a physical audio connection.

**Auracast audio sharing**

Connect with compatible Auracast-enabled audio devices for supported multi-device audio broadcasting and shared listening experiences.

**True Wireless Stereo pairing**

TWS support allows two compatible speakers to be paired for a stereo listening experience with expanded sound coverage.

**Six smart EQ modes**

- Music mode for everyday music playback.
- Relax mode for relaxed listening.
- Outdoor mode for outdoor entertainment.
- Party mode for social gatherings.
- Vocal mode for vocal-focused audio.
- Custom mode for personalised sound preferences.

**USB-C quick charging**

Recharge the speaker using its USB-C charging connection. A 10-minute charge can provide up to 2 hours of playback under specified conditions.

**Hands-free phone answering**

Answer compatible phone calls through the speaker without needing to hold your smartphone.

**Built-in power bank**

The integrated power bank function provides additional convenience when charging compatible devices.

**Built-in FM radio**

Enjoy radio entertainment using the integrated FM tuner without relying exclusively on Bluetooth music streaming.

**ConnectLife app support**

Use the ConnectLife application on a compatible mobile device to access supported sound customisation features.

**Portable dual-way carrying strap**

The carrying strap provides convenient handling and transportation when taking your speaker between different listening locations.

## What's in the Box

- 1 x Hisense Flex Boom Portable Bluetooth Speaker
- 1 x Carrying Strap
- 1 x Quick Start Guide

## Specifications

- Brand: Hisense
- Product model: Flex Boom (FLEXBOOM)
- Product type: Portable Bluetooth Speaker
- Maximum audio output: 80W
- RMS audio output: 40W
- Speaker configuration: 2 speakers

- Wireless stereo pairing: True Wireless Stereo (TWS)
- Multi-speaker connectivity: Auracast
- Auxiliary input: 1 x 3.5mm AUX input
- USB connection: USB-C
- USB-C charging: Supported
- USB-C power delivery: Supported
- FM radio: 87.5MHz - 108MHz
- Hands-free calling: Supported
- Built-in power bank: Supported
- Mobile application: Hisense ConnectLife
- Water and dust resistance: IP67
- Battery type: Rechargeable lithium battery
- Battery capacity: 5000mAh
- Battery voltage: 7.4V
- Playback time: Up to 20 hours
- Quick charging: 10 minutes of charging provides up to 2 hours of playback under specified conditions
- Full charging time: Approximately 3 hours
- Charging connector: USB-C
- Product dimensions (W x H x D): 24.05 x 10.065 x 10.75 cm
- Net weight: 1.5 kg
- Colour: Black

## FAQ

### How powerful is the Hisense Flex Boom Bluetooth Speaker?

The Hisense Flex Boom delivers up to 80W maximum audio output, with a rated RMS output of 40W. Its two-speaker system and dual passive radiators provide enhanced bass and clear audio reproduction.

### Is the Hisense Flex Boom waterproof?

The Hisense Flex Boom has an IP67 water and dust resistance rating. It is designed to withstand dust exposure and water immersion under specified test conditions. It should still be handled according to the manufacturer's water-resistance instructions.

### How long does the Hisense Flex Boom battery last?

The built-in 5000mAh rechargeable battery provides up to 20 hours of playback under specified testing conditions. Actual battery life depends on volume, sound settings and usage.

### How long does it take to charge the Hisense Flex Boom?

A full charge takes approximately 3 hours under the manufacturer's stated conditions. A 10-minute quick charge can provide up to 2 hours of playback.

### Can I connect two Hisense Flex Boom speakers together?

Yes. The speaker supports True Wireless Stereo (TWS) pairing, allowing two compatible speakers to be connected for a stereo listening experience.

### Does the Hisense Flex Boom support Auracast?

Yes. Auracast support allows the speaker to participate in compatible multi-device audio broadcasting and shared listening setups.

### Can I connect my smartphone to the Hisense Flex Boom?

Yes. You can connect compatible smartphones and other Bluetooth-enabled devices wirelessly to stream music and other audio content.

### Does the Hisense Flex Boom have an FM radio?

Yes. It features a built-in FM radio tuner with a frequency range of 87.5MHz to 108MHz.

### Can the Hisense Flex Boom answer phone calls?

Yes. The speaker supports hands-free phone answering, allowing you to answer compatible calls through the speaker.

### Does the Hisense Flex Boom have Bass Boost?

Yes. Its Bass Boost feature enhances low-frequency sound, while the dual passive radiators help deliver deeper and more powerful bass.

### What sound modes are available on the Hisense Flex Boom?

The speaker offers six sound modes: Music, Relax, Outdoor, Party, Vocal and Custom. These modes allow you to select an audio profile suited to your listening preferences.

### Can the Hisense Flex Boom charge other devices?

Yes. It includes a built-in power bank function for charging compatible devices.

### Can I use the Hisense Flex Boom outdoors?

Yes. Its portable design and IP67 water and dust resistance make it suitable for outdoor entertainment, camping, travel and social gatherings, provided the manufacturer's usage and water-resistance guidelines are followed.

### Does the Hisense Flex Boom support an audio application?

Yes. The speaker supports the Hisense ConnectLife application, which provides access to supported sound customisation features on compatible Android and iOS mobile devices.
