Buy this Hisense party speaker from our online store today for quick delivery in South Africa and elevate your events with rich audio and exciting 3D effects.

Overview Summary

Product:Hisense HP300 400W DJ Party Speaker

The Hisense HP300 400W DJ Party Speaker is designed for lively events, celebrations and gatherings. Featuring a high power 400W output, this speaker delivers deep bass and clear highs using dedicated woofers and tweeters. Bright RGB light effects sync to the music to create an immersive atmosphere while the 3D effect audio enhances the listening experience. Built in bass boost intensifies low frequencies for danceable beats and the integrated karaoke mode lets users sing along with friends and family. DJ mode adds beat control and performance style features, making this speaker a versatile choice for parties and functions.

Connectivity options include Bluetooth pairing for wireless streaming, USB and auxiliary inputs for various devices, and pair play to link multiple units for expanded sound coverage. Its robust build and intuitive controls make setup and operation simple whether used at home or at an event. With its blend of power, lighting effects and modes, the Hisense HP300 is ideal for entertainers, hosts and audio enthusiasts looking for fun and powerful sound solutions.

Performance tier:High output party audio

Uses:Party audio, DJ sessions, karaoke, home events, outdoor gatherings

Description

The Hisense HP300 400W DJ Party Speaker is engineered to deliver an exceptional audio performance for social events and entertainment. With a powerful 400W output, this speaker fills rooms and outdoor spaces with bold sound supported by dedicated woofers for deep bass and tweeters for crisp highs. Dynamic RGB lighting effects pulse in time with the music to add visual energy to your gatherings. The bass boost feature strengthens low end response to bring dance tracks to life, while the 3D effect audio setting enhances spatial sound depth.

Equipped with versatile playback options, the HP300 offers Bluetooth connectivity for effortless wireless streaming from mobile devices, as well as USB and auxiliary inputs to support a range of audio sources. Pair play capability allows you to connect two compatible speakers for expanded coverage. Selectable modes such as karaoke and DJ mode introduce fun interactive features for hosts and performers. Built with practical controls and connectivity, this speaker caters to users who want a complete audio solution for parties, family events, road trips and more.

Features

Key features of the Hisense HP300 400W DJ Party Speaker and how they benefit you:

- 400W output power: Delivers high volume and rich sound for parties and large gatherings.
- Dedicated woofers and tweeters: Provides balanced audio with enhanced bass and clear treble.
- RGB light effects: Creates visual ambience that syncs with your music for an engaging party experience.
- Bass boost: Strengthens low frequencies for deeper, more dynamic sound.
- Karaoke mode: Lets you connect microphones and sing along to your favorite tracks.
- DJ mode: Offers performance style options and effects for music mixing and entertainment.
- Bluetooth connectivity: Enables wireless audio streaming from smartphones and tablets.
- Pair play: Link multiple speakers to expand your audio environment.

RGB Lights effects

Bring the party to life with vibrant, pulsating RGB light effects that sync to your music. Whether you want a subtle mood glow or a full-on dance floor vibe, the dynamic lighting adds an extra layer of energy and atmosphere, turning every beat into a visual experience.

Bass Boost

Feel every beat with deep, powerful bass that energises your music. The Bass Boost feature enhances low frequencies for richer, more impactful sound. Perfect for parties, dance tracks, and anyone who loves their music with extra punch.

Karaoke Mode

Karaoke Mode turns your sound system into a lively karaoke machine, allowing you to sing along to your favorite tunes. This feature is perfect for parties and gatherings, offering vocal effects and background music adjustments to enhance your performance.
