HP-JM1600KLN-4G

Transcend / HP 4GB DDR3-1600 240pin 1.5V CL11 unbuffered ECC Server Memory

Product Overview

Transcend / HP 4GB DDR3-1600 240pin 1.5V CL11 unbuffered ECC Server Memory, 2Rx8 Dual Rank

Specifications

Overview:

DDR3-1600 Unbuffered Long-DIMM

JM1600KLN-4G

Designed for desktop computer use, our JetRam memory modules are manufactured with true ETT grade, brand-name DRAM chips, which are required to meet Transcend's stringent requirements for performance and stability, including rigorous testing in extreme environments. These modules offer a compelling combination of excellent compatibility and fully-tested reliability at an attractive price, which makes them the preferred upgrade memory choice of distributors and computer retailers. Before production, all materials used in the manufacturing process must first pass through strict qualification testing across many different platforms and operating system versions. Moreover, to assure ultimate cross-platform compatibility and stability, each module is tested in many different system configurations that include mainstream motherboards and popular software programs.

Specifications	
Product Code	HP-JM1600KLN-4G
DRAM Module	
RAM Type	DDR3
DIMM Type	Unbuffered Long-DIMM
Speed	1600
CAS Latency	CL11
Capacity	4GB

Rank x Org.	2Rx8
Component Composition	256Mx8
Voltage	1.5V
Pin Count	240 pin
PCB Height	1.18 inches
Operating Environment	
Operating Temperature	0 degreesC (32 degreesF) ~ 85 degreesC (185 degreesF)
