Specifications

About this product

The Logitech H540 USB Stereo Headset delivers high-definition digital audio with 31 mm laser-tuned drivers, a noise-cancelling microphone, and convenient on-ear controls. Designed for clear calls, online meetings, multimedia, and everyday PC use, this USB plug-and-play headset combines comfort, reliable voice capture, and rich stereo sound. Buy online today for quick delivery in South Africa.

Overview Summary

Logitech H540 USB Stereo Headset with Noise-Cancelling Microphone

The Logitech H540 is a premium wired USB headset designed for users who need clear communication and high-quality stereo audio. Featuring laser-tuned 31 mm drivers and a built-in equalizer, it delivers detailed sound for voice calls, video conferencing, music, and multimedia applications.

A flexible noise-cancelling boom microphone helps reduce background distractions for clearer conversations, while the integrated on-ear controls allow quick volume adjustments and microphone muting. Soft padded ear cushions and an adjustable headband provide lasting comfort during extended work or study sessions.

Performance tier:Mid-range Professional USB Headset

Uses:Video conferencing, remote work, online meetings, VoIP calls, online learning, multimedia playback, office communication

Overview

H540 USB Computer Headset features plug-and-play connectivity so you can instantly enjoy music, movies, and calls in rich, digital stereo sound. On-ear controls and mute indicator light make it easy to see when the mic is muted.

Description

The Logitech H540 USB Stereo Headset is designed to provide reliable communication and immersive digital audio for business, education, and personal use. With its USB-A plug-and-play connection, the headset connects directly to compatible Windows, macOS, and ChromeOS devices without requiring additional software installation.

Its 31 mm laser-tuned drivers and integrated equalizer help deliver rich stereo sound with enhanced clarity across voice calls, music, videos, and online content. The bi-directional noise-cancelling microphone is mounted on a flexible boom that can be positioned for optimal voice pickup and rotated out of the way when not required.

Convenient on-ear controls allow users to adjust volume levels and mute the microphone without interrupting workflow. An integrated mute indicator provides a visual confirmation when the microphone is muted. Soft leatherette ear cushions and a padded adjustable headband help maintain comfort during long meetings, online classes, or extended listening sessions.

The H540 is suitable for remote workers, office professionals, students, customer support teams, and anyone requiring dependable wired USB audio performance.

Features

The Logitech H540 combines audio quality, comfort, and practical communication features in a professional USB headset.

- 31 mm laser-tuned audio drivers for detailed stereo sound.
- Built-in equalizer for enhanced audio performance.
- Noise-cancelling bi-directional microphone for clearer voice communication.
- Flexible rotating boom microphone for optimal positioning.

ComX Computers

Product Specification Sheet

- USB-A plug-and-play connectivity.
- Integrated on-ear audio controls for volume adjustment and microphone mute.
- Mute indicator light for quick status confirmation.
- Soft padded leatherette ear cushions for long-term comfort.
- Adjustable padded headband for a secure fit.
- Compatible with Windows, macOS, ChromeOS, and popular calling applications.
- 1.8 m cable for flexible workstation placement.

High-definition sound quality

Laser-tuned drivers and built-in equalizer provide rich, digital audio for full immersion in music, games and calls. This plug-and-play headset can be used with any PC or Mac computer with a USB-A port or adapter without the need to install software.

Noise canceling mic

Minimizes unwanted background noise for clear conversations. Right-sided mic can be conveniently positioned for better voice capture. Discreet boom can be tucked inside the headband and out of the way when you're not using it.

On-ear controls

Adjust the volume or mute your calls with simple on-ear controls located on the right ear cup. Confirm mute status with an easy-to-see light indicator on the headset cord.

Padded comfort

Ultra-comfortable, adjustable design. Soft, padded leatherette headband and ear cups feel good even after hours of listening.

USB-A connection

USB provides easy plug-and-play operation. Simply plug the USB-A connector into your computer and instantly enjoy conversations, movies, or music in rich stereo sound.

What's in the Box

- 1 x Logitech H540 USB Stereo Headset
- 1 x User documentation

FAQ

Is the Logitech H540 compatible with Windows and Mac computers?

Yes. The Logitech H540 supports Windows, macOS, and ChromeOS devices with a USB-A port.

Does the Logitech H540 require software installation?

No. The headset uses USB plug-and-play connectivity and works without additional software on supported operating systems.

Does the microphone reduce background noise?

Yes. The H540 includes a noise-cancelling bi-directional microphone designed to reduce unwanted background sounds during calls.

Can I mute the microphone directly from the headset?

Yes. Dedicated on-ear controls allow microphone muting and volume adjustment without using software controls.

What is the Logitech H540 best suited for?

The headset is ideal for remote work, online meetings, VoIP communication, virtual learning, customer support, and multimedia playback.

How long is the headset cable?

The Logitech H540 includes a 1.8 m USB cable for flexible desktop connectivity.

Does the headset provide stereo audio?

Yes. The H540 features stereo sound with laser-tuned drivers and an integrated equalizer for improved audio quality.
