Specifications

About this product

Enhance your TV audio with the Hisense HS1000 2.1 Channel 120W Soundbar featuring DTS Virtual:X, EzPlay, TV Mode, 4 speakers and Bluetooth 5.3 for powerful, immersive sound. Buy now from our website for quick delivery in South Africa.

Overview Summary

The Hisense HS1000 2.1 Channel 120W Soundbar delivers clear, balanced audio and enhanced sound depth with advanced surround processing. Designed for seamless setup with TVs including ROKU TV, this soundbar combines multiple connection options with intuitive sound modes for movies, music, gaming and more. Integrated Bluetooth 5.3 allows wireless playback from smartphones, tablets and other devices.

With DTS Virtual:X, TV Mode and EzPlay, the HS1000 improves dialogue clarity and creates virtual height effects without additional speakers, elevating the listening experience for everyday viewing or entertainment sessions. Its compact design and versatile mounting options make it an ideal home audio upgrade.

Performance tier: Mid-range

Uses:TV audio upgrade, home theatre sound, music playback, gaming audio, wireless streaming

Description

The Hisense HS1000 2.1 Channel Soundbar combines modern audio decoding and versatile connectivity to bring rich, cinematic sound to your living room or media area. Offering up to 120W of max audio power with four built-in speakers, this soundbar delivers clear highs and strong midrange presence. Dolby Digital Plus and DTS Virtual:X technologies expand perceived sound space, simulating multi-directional audio while optimising clarity. Bluetooth 5.3 enables reliable wireless streaming from your devices, while dedicated TV Mode enhances dialogue clarity and tonal balance for everyday content. Simple setup with HDMI eARC, optical, AUX and USB connections ensures compatibility with a wide range of TVs and media sources. Whether you are watching movies, streaming music or gaming, this compact yet powerful soundbar adds depth and scale to your audio experience.

Features

The Hisense HS1000 soundbar offers a set of features designed to enhance your audio experience:

- DTS Virtual:X: Simulates immersive height and surround sound without extra speakers.
- TV Mode: Optimises audio specifically for television content to improve dialogue and clarity.
- Bluetooth 5.3: Provides stable and efficient wireless audio streaming.
- EzPlay: Makes easy device pairing possible with supported devices.
- Multiple inputs: Connect via HDMI eARC, optical, AUX or USB for flexible installation.
- Sound modes: Music, Movie, Game and Sport modes tailor audio for different content types.

2.0 Channel
Enjoy crisp stereo sound with 2.0 Channel Audio, delivering balanced left and right audio for a fuller, more immersive listening experience whether you're watching movies, playing games, or streaming music.

Dolby Digital Plus
Experience audio the way it was meant to be heard. Dolby Digital Plus enhances clarity, depth, and detail putting you at the center of rich, cinematic sound.

DTS Virtual: X
Bring your entertainment to life with DTS Virtual:X. This advanced audio technology creates the illusion of height and surround sound, no extra speakers needed, for a truly immersive experience.

FAQ

What connectivity options does this soundbar support?

This soundbar supports HDMI eARC, optical audio input, AUX and USB connections in addition to Bluetooth 5.3 wireless streaming, enabling simple integration with TVs and media devices.

Can I stream music wirelessly?

Yes, Bluetooth 5.3 allows you to pair compatible phones, tablets or other devices for wireless audio playback without cables.

Does it improve TV dialogue clarity?

The dedicated TV Mode and advanced audio decoding help improve dialogue clarity for movies and shows, making voices more distinct and intelligible.

Is Dolby Digital Plus supported?

Yes, Dolby Digital Plus is supported for enhanced detail and depth in compatible content, enriching the overall audio experience.
