Kingbrite LED Horticulture Light Smart Controller, 2 Temp, 2 Humidity Sensors

Product Overview

Kingbrite LED Horticulture Light Smart Controller, 2 Temp, 2 Humidity Sensors

Specifications

Overview:

The Kingbrite new generation master controller is a dual-channel module, each channel is programmable, allowing the user to control two separate grow areas or rooms. This controller uses an LCD touchscreen for easy navigation. The controller timers operate on a standard 24-hour clock. It also comes with 5 custom modes to allow you to slowly dim your lights on and off to mimic the natural light cycle. It is also designed for different growth stages, so you can set different lights depending on what you need.

The controller can switch all the interconnected fixtures on and off with its internal timer, adjust them to your required output level (in percentage or exact output power) and even simulate sunrise and sunset to gradually adjust the climate in your grow room when your lights go on or off. This electronic controller replaces expensive lighting timers and contactors while preventing ballast current in-rush when switching on your lights.

Features:

- Control the lighting in your grow rooms
- LCD Touchscreen
- Control two separate rooms
- Support for up to 200 LED units
- Sunrise and sunset simulation supported
- Dimming support

Product Specification Sheet

Product Code	KB-9690005
Control voltage outputs	2 Zones (Groups). 1/2
Number of control channels	3
Number of lights per output	100 pcs max
Max. cable length per group	200 meters
Match LED Fixture	200PCS
Power Dimming Scope	0 - 100%
Power Consumption	
Input Voltage	DC12V
Output	0 - 10V
Sensor	2pcs 2-in-1 Temp/Humidity Sensor
Product Dimensions	14.5 x 8.6 x 3.2 cm
