Specifications

About this product

The Logitech G413 TKL SE Mechanical Gaming Keyboard delivers a compact tenkeyless design with tactile mechanical switches, white LED backlighting, durable PBT keycaps, and a brushed aircraft quality aluminium top case for precision control and lasting performance in both gaming and productivity environments.

Overview Summary

Logitech G413 TKL SE Mechanical Gaming Keyboard is a performance focused tenkeyless mechanical keyboard built for competitive play and everyday productivity. Its tactile mechanical switches provide responsive feedback with every press, while the white LED backlighting ensures clarity in low light gaming sessions. The brushed aircraft quality 5052 low carbon aluminium alloy top case and wear resistant PBT keycaps deliver a premium build that resists heat and wear through long term use. G413 TKL SE offers reliable control with 6 key rollover anti ghosting, making it ideal for fast input sequences and intense

gameplay.

The tenkeyless form factor saves desk space while maintaining essential functionality, and Enhanced Function Keys give quick access to media controls and lighting toggles. A wired USB connection ensures consistent performance without lag or interference, and broad compatibility with Windows and macOS systems keeps this keyboard ready for almost any setup.

Whether gaming or typing, the G413 TKL SE balances rugged construction and responsive performance in a compact, minimalist design that fits both home and competitive setups.

Performance tier:Mid range

Uses:Gaming, Typing, Productivity, Content creation, Compact workspace

Overview

G413 TKL SE features tactile mechanical switches, 6-key rollover anti-ghosting, PBT keycaps and durable aluminum alloy build-all in a tenkeyless design.

Description

The Logitech G413 TKL SE is engineered for users who demand solid mechanical performance without extra bulk. Its tenkeyless layout removes the numeric keypad to provide more desk room while keeping all core keys easily accessible. Tactile mechanical switches deliver distinct feedback at an actuation distance of 1.9 mm with a 50 g actuation force, allowing for precise control whether you are gaming or typing. White LED backlighting illuminates key legends for enhanced visibility in low light, while the durable PBT keycaps resist heat and wear for extended use. Built with a brushed aircraft quality 5052 low carbon aluminium alloy top case, this keyboard feels sturdy and premium in every interaction. Enhanced Function Keys add useful shortcuts for media, lighting, and system commands, streamlining workflow without leaving your keyboard.

Features

Key features that enhance your gaming and typing experience include:

- Tactile Mechanical Switches: Deliver precise and responsive key feedback for gaming and fast typing.
- White LED Backlighting: Ensures clear key visibility in low light environments.
- Anti Ghosting with 6 Key Rollover: Accurately registers multiple simultaneous key presses.
- PBT Keycaps: Wear resistant and heat resistant for long lasting durability.
- Tenkeyless Design: Compact layout that saves desk space and enhances portability.
- Enhanced Function Keys: Quick access to media controls, lighting toggles, and system commands.
- Durable Build: Brushed aluminium top plate for strength and a premium feel.

MADE FOR PLAY

G413 TKL SE puts gaming-grade performance-from tactile mechanical switches to 6-key rollover anti-ghosting and PBT keycaps-into optimal compact form. With minimalist tenkeyless design and sturdy, durable aluminum alloy build, it's ready to compete.

TACTILE MECHANICAL SWITCHES

G413 TKL SE comes with a tenkeyless layout for peak performance. Gaming-grade tactile mechanical switches deliver subtle feedback through the actuation moment-ideal for split-second decisions in competitive and FPS gaming.

PBT KEYCAPS

Durable keycaps are vital for lasting confidence in all your keystrokes. G413 TKL SE keycaps are made with PBT-the most durable material on the market. PBT provides excellent heat and wear resistance for optimal gaming performance over the life of your keyboard.

LED LIGHTING

Whether you're in a competitive match or playing with friends, focus is a must. G413 TKL SE features white LED lighting thoughtfully designed to enhance concentration and clarity.

6-KEY ROLLOVER WITH ANTI-GHOST

6-key rollover with an anti-ghosting gaming matrix provides total control in the heat of the game. Press multiple keys seamlessly and simultaneously.

BUILT TO LAST

G413 TKL SE features a black brushed aircraft-quality 5052 low-carbon aluminum alloy top case, gaming-grade mechanical switches and PBT keycaps for a premium experience and superior durability.

FAQ

What makes the Logitech G413 TKL SE suitable for gaming?

The Logitech G413 TKL SE features tactile mechanical switches and 6 key rollover with anti ghosting, giving you precise key registration and responsiveness essential for gaming performance.

Can the keyboard be used with Mac computers?

Yes, the keyboard works with macOS systems via a USB connection, though some special function keys may behave differently compared to Windows.

Does this keyboard have backlighting adjustments?

The white LED backlighting provides consistent illumination, but brightness levels may be controlled through the Enhanced Function Keys provided on the keyboard itself.

Is the tenkeyless layout suitable for office use?

Yes, the compact tenkeyless layout saves desk space and offers all essential keys, making it suitable for both gaming and productivity tasks.
