Product Overview

Logitech 920-007931 MK235 Cordless (cordless Keyboard+ Mouse), Full sized kb - with 128-bit AES wireless encryption, enhanced function keys, black : USB | interface : usb, colour : black, enhanced function keys : Y, additional hotkeys : N, plamrest : N, mouse : Y, 4 way tilt wheel : N, application switch : N, web forward / backward : N, recharge station : N, mouse button : 3, left hand support : Y, battery indicator : N, auto turn off - save battery : N, warranty - years : 3, unifying receiver : N

Specifications

Features:

Familiar keyboard layout
No learning curve involved. You will enjoy the comfort and simplicity of a traditional full-size keyboard layout from day one.

Long battery life
Type as long as three years between battery changes and use your mouse for up to a year before replacing the battery. The three year battery life prediction is based on approximately two million keystrokes per year in an office environment. Like all batteries, your experience may vary based on the use and computing conditions.

Built to last
Durable construction with sturdy tilt legs and spill-resistant design. Anti-fading treatment on each key so you never worry about losing the letters from your keys.

Reliable wireless
Simply plug the tiny USB receiver and enjoy a strong connection with no lag time. Your wireless keyboard and mouse will still be connected up to 10 meters (33 ft) away. While environmental conditions may cause the wireless range to vary slightly, you will always have the connection you need.

System Requirements:

- Windows® 7, Windows 8, Windows 10 or later
- Chrome OS™
- Linux® kernel 2.6+
- USB port
