Samsung KU7000 70" 4K UHD Smart Interaction Slim LED TV \*TV license\*

### Product Overview

Samsung ua70KU7000 70" 4K UHD Smart Interaction Slim LED TV - with bi-directional TV-Mobile Mirroring + voice control + Multi-Link Screen, with UHD Micro Dimming + Local Dimming for precision black + slim bezel, smart hub + smart TV + smart view + network ready (wired + wireless) + ultra clear Pro panel + BD wise plus + EPG + time shift - 20w 3D speaker, 3840x2160 Ultra HD with 1300PQi; vesa-wall mountable - 4x HDMI + component + RCA + 3x USB + optical digital audio + RF-in for satellite | resolution / PQi : 3840x2160 / 1300, 3D : N, curved : N, ultra clear panel : Y - Pro, Nano Crystal Colour : N, Auto Depth Enhancer : N, TV-Mobile Mirroring : Y - bi-directional, Peak Illuminator : Y, processor : quad core, thickness - mm : ?, speaker : Y - 3D - 2 x 10w, motion plus - hz : ?, ethernet / network : Y - wired + wireless, micro dimming : Y, BD wise : Y - Plus, swivel stand : N, time shift / EPG : Y / Y, smart hub : Y, smart TV : Y, smart evolution : N, color : black, HDMI : 4, composite / RCA : 1, component : 1, s-video : x, usb : 3, RF-in ( Terrestrial / Satellite ) : 1 / 1, L+R audio out : x, optical digital audio : Y, MHL : Y, vesa wall mount - mm : Y \*TV license required\*

### Specifications

#### Features:

#### Brightness comes to you

With HDR Premium, you can enjoy previously unseen details hidden in the brightest parts of the TV screen when watching HDR content. A theatre-like, true HDR experience is finally available right in your living room.

#### Experience more accurate and natural colours

Samsung developed a special colour technology for our UHD TV called PurColour, which expresses a wider range of colours and shades that are as close to real life as it gets, bringing you closer to what nature intended. With all the 8 million pixels that come with a UHD display-four times more than a Full HD display-you need more colour adjustment points to create detailed images. Conventional UHD TVs have about 27 colour adjustment points, but PurColour dramatically increases that by more than 7 times, resulting in colours and shades that are much richer and more refined.

#### Every detail in stunning 4K UHD resolution

Experience vivid detail with 4X the resolution of Full HD TV. Everything you watch will look better thanks to true-to-life colour and brightness.

#### Quick and Single Access to all Content Sources

New Smart Hub provides single access point to Live TV, Over The Top (OTT), Games and more . Users can access to their favourite content as soon as they turn on the TV.

## ComX Computers

### Product Specification Sheet

#### Upscale content for vivid image quality

Samsung's UHD Picture Engine gives you near UHD-level pictures even when streaming lower resolution contents. It uses an innovative 4-step process to convert your favourite content into premium life-like quality.

#### Enhanced contrasts for your viewing experience

UHD Dimming technology provides optimised contrast, colour and sharpness for true-to-life image quality. More intricate than the existing Micro Dimming, it's a viewing experience like never before.

#### Step up your picture quality to near-UHD

Ultra Clean View analyses your content with an advanced algorithm to filter and reduce noise. Even if the video source is less than Full HD quality, you'll still be able to enjoy images that rival the UHD standard.

#### Easily share your content to TV

Take pictures, videos and music from your mobile and PC to your Smart TV using the Samsung Smart View app. It gives you amazing convergence and easy connectivity, with majority of personal devices.

#### Faster speeds, stronger performance

The powerful Quad Core Processor speeds up your Samsung Smart TV so it reacts to commands and running apps instantly. It also gives you the speed to enjoy multitasking with the Multi-Link Screen.

#### Accelerate your Smart TV with Tizen

Tizen takes Smart TV performance to another level with faster boot times and quick access to Live TV and all your apps. It even provides support for popular local VOD apps for optimised TV viewing.

#### Dive into your video content

Motion Rate 120 offers immersive viewing with flicker-free video content. The amazing refresh rate and backlight technology will keep you at the edge of your seat with fast and seamless video.

#### Simple and fast wireless connection

The built-in Wireless Lan lets you connect your Smart TV to the internet without the tangle of cables. With the streamlined connections, now you can really enjoy your TV's outstanding design.

#### Plug your entertainment into the TV

Using ConnectShare, you can watch a variety of content in one simple step. Just plug your USB or HDD into the TV and enjoy your movies, music, and pictures on the big screen.

#### Create your own entertainment space

Samsung TVs support HDMI inputs, which lets you create a multimedia entertainment centre in your own living room. Connect HDMI straight into your TV to view various contents from multiple devices.
