Overview:

ThinkStation P720 Tower - Feature-rich dual-processor workstation

Powered by Intel Xeon processors and NVIDIA Quadro graphics, this durable workstation is one tough performer. Ideal for professionals with heavy data-processing needs, the ThinkStation P720 gives you speed with huge storage options and parallel-processing capability.

Features:

Designed for users, engineered for IT managers

Powerful enough to render VR, this high-performance workstation lets you tap the speed and efficiency of Intel Xeon processing and NVIDIA Quadro graphics. It also comes with ISV certification from all the major vendors like Autodesk, Bentley, and Siemens.

Easy to set up, deploy, and manage, the ThinkStation P720 endures rigorous testing in extreme environmental conditions. So you can count on its reliability and durability. And with an exceptional design and build quality, it gives you increased serviceability along with decreased downtime. A win-win for any organization.

What's more, fine-tuning and optimizing system performance is a breeze. Simply download and run the Lenovo Performance Tuner and Lenovo Workstation Diagnostics apps.

Packs a punch

Enjoy the increased performance of the latest Intel Xeon processors and NVIDIA Quadro graphics. The Thinkstation P720 scales graphics memory and performance to drive the most demanding AI, rendering, and visual computing workloads with ease-including the toughest ISV-certified applications.

Unparalleled versatility

The P720 features a superior modular design, including Flex Trays that hold up to two drives per bay. Configure only the components you need for the ultimate in usability and savings.

Built to last

Patented Tri-Channel Cooling ensures the P720 uses fewer fans and stays cooler than its rivals. It therefore runs for longer with less downtime and a bigger bottom line.

Easy to enhance

Even on the motherboard, you can swap out components quickly and easily-without any tools, thanks to intuitive red touch guide points. And superb cable management means no wires or plugs, just superior serviceability
