Logitech G213 Prodigy Wired Gaming Keyboard USB

Product Overview

Logitech G213 prodigy Wired Gaming Keyboard USB, Spill resistance cable 1.8m, USB, RGB (5 zone) backlighting

Specifications

Features:

GAMING GRADE PERFORMANCE

The G213 gaming keyboard features Logitech G Mech-Dome keys that are specially tuned to deliver a superior tactile response and overall performance profile similar to a mechanical keyboard. Mech-Dome keys are full height, deliver a full 4mm travel distance, 50g actuation force, and a quiet sound operation.

LIGHTSYNC RGB

G213 features five individual lighting zones, each customizable from a palette of approximately 16.8 million colors and different brightness levels to match your style, system or space. LIGHTSYNC technology provides next-gen RGB lighting that synchronizes lighting and game profiles with your content. Customize it all quickly and easily using Logitech G HUB.

SPILL-RESISTANT AND DURABLE

The G213 membrane and keyframe construction design is built for real life, delivering spill resistance tested to 60ml liquid rating. The result is a keyboard built to contend with the realities of everyday gaming.

INTEGRATED PALM REST & ADJUSTABLE FEET

The two-level angle adjustment lets you set your keyboard so it feels just right, while the integrated palm rest relieves discomfort or fatigue, so you can keep playing comfortably round after round.

DEDICATED MEDIA CONTROLS

The G213 features dedicated media controls that can be used to play, pause, and mute music and videos instantly. Adjust the volume, or skip to the next song with a touch of a button.

CUSTOMIZE WITH LOGITECH G HUB

G HUB lets you customize your G213 for added convenience and personalization. Set the RGB lighting, save time by assigning multiple functions to certain keys, and much more.
