About this product

The Logitech Wireless Presenter R400 910-001356 is a reliable 2.4GHz wireless presentation remote designed for professional presentations, lectures, training sessions, and meetings. Featuring intuitive slideshow controls, a built-in Class 2 red laser pointer, and an operating distance of up to 10 m, this presenter gives you the freedom to move confidently while presenting. Buy this Logitech Wireless Presenter R400 online today for quick delivery in South Africa.

Overview Summary

Logitech Wireless Presenter R400 - 2.4GHz Presentation Remote

The Logitech R400 Wireless Presenter is built for users who need dependable slide control and laser pointing functionality during presentations. Its ergonomic handheld design and tactile buttons allow presenters to navigate slides easily without looking down, helping maintain audience engagement during business meetings, classrooms, conferences, and training sessions.

Using 2.4GHz wireless technology, the R400 provides stable wireless connectivity with an operating range of approximately 10 m. The included USB mini receiver offers plug-and-play functionality with no software installation required. A built-in battery indicator, integrated receiver storage compartment, and included carrying case make this presenter suitable for mobile professionals and daily use.

Performance tier: Professional presentation remote

Uses: Business presentations, classroom teaching, training sessions, conference speaking, PowerPoint presentations, office meetings

Description

The Logitech Wireless Presenter R400 is designed to simplify professional presentations with reliable wireless control and intuitive operation. Its compact handheld design fits comfortably in the hand, while the tactile buttons allow presenters to control slides naturally without distraction. The built-in red laser pointer helps highlight important information clearly during presentations in meeting rooms, classrooms, and conference venues.

The R400 uses 2.4GHz wireless technology with a USB mini receiver to deliver stable connectivity and responsive slide control. The receiver stores neatly inside the presenter when not in use, reducing the risk of loss during travel. Plug-and-play support means users can connect the presenter to a compatible Windows computer without installing software.

Designed for business professionals, educators, and trainers, the Logitech R400 helps presenters move freely while maintaining full control over slides. The included carrying case improves portability and protection, while the battery indicator helps monitor remaining power during important presentations.

Features

The Logitech R400 Wireless Presenter combines simple operation with practical presentation tools for professional environments.

- 2.4GHz wireless connectivity for stable presentation control
- Approximate 10 m wireless operating distance
- Built-in Class 2 red laser pointer

ComX Computers

Product Specification Sheet

- Compact ergonomic handheld design
- Compatible with Windows systems using USB connectivity
- Includes carrying case for portability and protection
- Long battery life for extended presentation use
- Smooth button layout for easy control during presentations

Intuitive slideshow controls

Buttons are easy to find by touch. And the smooth contours feel great in your hand. You'll be in control from the first slide to the last.

Up to 15-meter range

The 2.4 GHz wireless allows you to enjoy the freedom to move around the room and mingle with your audience for greater impact.

Plug-and-play wireless receiver

There's no software to install. Just plug the receiver into a USB port to begin. And when the show is over, you can store the receiver in the presenter.

Red laser pointer

It'll be easy for your audience to see exactly what you're pointing to.

Battery indicator

Lets you know how much power is available with just a glance.
