Aavara PB053 wall mount projector hanger - 525mm from wall, 360 Degree Rotation, +/- 25 Degree inclination on mount plate, +/-5 Degree on pillar, support up to 15kg, compatible with hole patterns up to 325mm

Specifications

About this product

The Aavara PB053 Wall Mount Projector Hanger is a professional short throw projector mounting solution designed for secure wall installation. Featuring a maximum wall extension of 525mm, 360 degree rotation, +/-25 degree inclination on the mount plate, +/-5 degree adjustment on the pillar, and support for projectors up to 15kg, it delivers flexible positioning and precise image alignment. Compatible with projector mounting hole patterns up to 325mm, this durable mount is ideal for classrooms, offices, boardrooms, and home cinema installations. Buy now from our website for quick delivery in South Africa.

Overview Summary

Aavara PB053 Wall Mount Projector Hanger

The Aavara PB053 is a wall mounted projector bracket designed specifically for short throw and standard projector installations where precise positioning is essential. Its robust steel and aluminium construction supports projectors weighing up to 15kg while providing excellent stability and long term reliability.

With 360 degree rotation, adjustable inclination, and support for mounting patterns up to 325mm, the PB053 allows installers to achieve accurate projector alignment with minimal effort. The integrated cable management system helps maintain a clean and professional appearance by concealing cables within the mounting structure.

Ideal for education, business, digital signage, and home entertainment environments, the PB053 offers flexible adjustment capabilities and universal compatibility for a wide range of projector models.

Performance tier:Professional Installation Grade

Uses:Short throw projector installation, classroom projection, boardroom presentations, conference rooms, training centres, home theatre setups, digital signage

Overview

Aavara PB053 Wall Boom Universal Projector Mounts designed for Short Throw Projector which can accommodate all types of

projectors with up to a 540mm projector throw distance. Unique Quick & Easy Tool-Free 3 Axis Micro Adjust for smooth installation. Quick Attach and Detach Mount Plate design which will save a lot of installing and adjustment time. All cables run neatly through the boom and are concealed behind the wall plate.

Description

The Aavara PB053 Wall Mount Projector Hanger is engineered for professional projector installations where precise image positioning and reliable support are required. Designed as a wall boom style mount, it extends up to 525mm from the wall, making it particularly suitable for short throw projector applications in educational, commercial, and residential environments.

Its universal mounting design supports projector hole patterns up to 325mm, allowing compatibility with a wide variety of projector brands and models. The mount incorporates multiple adjustment points, including 360 degree rotation, +/-25 degree inclination on the mounting plate, and +/-5 degree adjustment on the pillar, helping installers achieve optimal screen alignment.

Constructed from steel, aluminium alloy, and durable plastic components, the PB053 provides a stable platform capable of supporting projectors weighing up to 15kg. Integrated cable management routes cables through the structure to create a cleaner and more professional installation.

Whether used in classrooms, boardrooms, meeting rooms, training facilities, or home theatres, the PB053 delivers dependable performance and installation flexibility.

FAQ

What projectors are compatible with the Aavara PB053?

The Aavara PB053 supports projector mounting hole patterns up to 325mm diameter and is compatible with many projector brands that use M3, M4, M5, or M6 mounting screws.

How much weight can the Aavara PB053 support?

The mount is rated to safely support projectors weighing up to 15kg.

Can the projector be rotated after installation?

Yes. The PB053 provides 360 degree rotation, allowing flexible positioning and alignment adjustments.

Is this mount suitable for short throw projectors?

Yes. The wall boom design and 525mm extension make it particularly suitable for short throw projector installations.

Does the mount include cable management?

Yes. The PB053 features integrated cable management that helps conceal cables within the mount structure for a cleaner installation.

Where can the Aavara PB053 be used?

It is suitable for classrooms, offices, conference rooms, training facilities, digital signage installations, and home theatre environments.

Can the projector angle be adjusted after mounting?

Yes. The mount provides +/-25 degree inclination on the mount plate and +/-5 degree adjustment on the pillar for fine tuning projector alignment.
