Specifications

About this product

The Aavara Ti022 Flip Mount for 2x LCD displays is a professional double-sided monitor mounting solution designed for point-of-sale, customer-facing information displays, and commercial environments. Featuring a secure grommet base, mirror image display support, height adjustment, 20 degree tilt and swivel movement, 90 degree rotation pivot, and Aavara ExperTorque technology, it supports up to 2 x 24 inch monitors with a maximum combined load of 12kg. Buy now from our website for a reliable and space-saving dual screen mounting solution.

Overview Summary

Aavara Ti022 Flip Mount for 2x LCD Displays

The Aavara Ti022 Flip Mount is a versatile dual monitor mounting system designed for environments where information must be viewed from both sides of a workstation. Its double-sided monitor configuration makes it particularly suitable for point-of-sale counters, reception desks, ticketing stations, banking environments, and customer service applications.

Built with durable aluminium alloy and steel construction, the mount provides excellent stability while maintaining a professional appearance. The integrated ExperTorque technology enables smooth monitor positioning, while the adjustable tilt, swivel, rotation, and height settings allow users to create an ergonomic and efficient display setup.

The mount supports VESA 75 x 75mm and 100 x 100mm standards and accommodates two displays up to 24 inches with a total load capacity of 12kg. Smart cable management helps maintain a clean and organized workspace while reducing cable clutter.

Performance tier: Professional Commercial Display Mount

Uses: Point of Sale systems, customer facing displays, retail counters, reception desks, banking terminals, ticketing stations, information kiosks, office workstations

Overview

Aavara TI022 is a back-to-back LED/LCD Monitor Grommet base stand, featuring a wide angle of +/- 20 degree Tilt, swivel and a 360 degree rotation. It supports VESA 100x100/75x75mm display and ExperTorque technology enables adjustment of the screens hinged by its weight.

Description

The Aavara Ti022 Flip Mount is engineered to provide an effective and professional mounting solution for dual monitor environments that require information to be displayed on both sides of a workstation. Its innovative double-sided design is particularly beneficial in customer service environments where staff and customers need to view information simultaneously.

Designed with flexibility in mind, the mount incorporates a 20 degree tilt and swivel adjustment system that allows users to position displays for optimal viewing comfort. The 90 degree rotation pivot enables seamless switching between landscape and portrait orientations, making it suitable for a wide range of business applications.

The integrated ExperTorque technology helps maintain smooth monitor positioning while supporting displays securely. Height adjustment functionality allows users to customize the display position to suit different work environments and ergonomic requirements.

Manufactured from aluminium alloy and steel, the Ti022 offers durability and long-term reliability. Smart cable management channels help route cables neatly through the mount, creating a cleaner and more organized workspace. The grommet base installation provides a secure mounting point for desks and counters while maximizing available workspace.

Features

Tilt & Swivel Angle	+/-20degrees
Rotation	360degrees
Smart Cable Management	Yes
Screw Type	M4
ExporTorque	ExperTorque design for easy adjustment hinged by monitor weight
VESA Mounting	100x100mm/ 75x75mm
Material	Steel/ Aluminum

FAQ

What is the Aavara Ti022 used for?

The Aavara Ti022 is designed for dual monitor installations where displays need to be viewed from both sides, making it ideal for point-of-sale counters, reception desks, customer service stations, and information kiosks.

How many monitors can the Ti022 support?

The mount supports 2 LCD monitors in a double-sided configuration.

What monitor sizes are compatible with this mount?

The Ti022 supports monitors up to 24 inches in size.

Which VESA mounting standards are supported?

The mount is compatible with VESA 75 x 75mm and 100 x 100mm mounting patterns.

Can the monitors be rotated into portrait mode?

Yes. The 90 degree rotation pivot allows displays to be used in either landscape or portrait orientation.

Does the mount include cable management?

Yes. The Ti022 features integrated smart cable management to help keep cables organized and reduce desktop clutter.

What is ExperTorque technology?

ExperTorque technology is designed to provide smooth and controlled monitor positioning while maintaining stable display support.

Is the mount height adjustable?

Yes. The Ti022 includes height adjustment functionality for improved ergonomics and display positioning flexibility.
