Product Overview

Logitech C920S 3MP HD Pro Webcam USB, 3 Mega Pixel, Autofocus, Glass Lens Type, Built-in Mic, Up to 1 m Mic range, 78 degrees diagonal Field of view (DFOV), Tripod-ready Universal mounting clip

Specifications

Overview:

C920s PRO HD WEBCAM

Full 1080p HD video calls with privacy shutter

Features:

GREAT VIDEO CALLS. PRIVACY INCLUDED.

Make a strong impression in your video conference calls with a diagonal, fixed 78 degrees field of view to perfectly frame you and your space-plus full HD at 1080p/30fps or 720p/30fps. The five-element glass lens captures razor-sharp images and clear colors, while autofocus adjusts smoothly and precisely for consistent definition and fluid video. Flip the privacy shutter closed when you want to be off-camera.

DUAL-MIC - STEREO AUDIO

Two microphones, one on either side of the camera, capture more realistic sound from a broader range of angles-so your voice comes through sounding natural and clear in conference calls.

ALL-IN-ONE CONTENT CREATION WITH CAPTURE

Easily create, record, and customize settings with our Capture app. A suite of features lets you fully edit and customize your stream, so you can add transitions and text overlays, customize webcam settings, and more.

OPTIMAL LIGHTING

Equipped with automatic HD light correction, the C920s uses Logitechs RightLight 2 technology to adjust to your lighting conditions, producing bright, contrasted images, even if youre in a dim setting.

HD GLASS LENS WITH PRIVACY COVER

The full HD five-element glass lens and premium autofocus capture razor-sharp, clear images, adjusting smoothly and precisely to provide consistent high definition in conference calls. A convenient privacy cover protects the lens-and your privacy.
