

M1200 2PACK -2

Cudy M1200 AC1200 Mesh Wi-Fi system - 2 Pack

Product Overview

Cudy M1200 AC1200 Mesh Wi-Fi system - 2 Pack, Wi-Fi Standard is Wi-Fi 5 with AC1200 Speed Class, Dual-Band Operation on 2.4GHz and 5GHz frequencies, Maximum Speed of 867 Mbps on 5GHz band, Maximum Speed of 300 Mbps on 2.4GHz band, Supports connection for up to 128 devices simultaneously, 2x Fast Ethernet Ports (10/100 Mbps), Features MU-MIMO and beamforming Technology, Seamless Mesh roaming between Network Units

Specifications

Overview Summary:

Upgrade your home internet with the Cudy AC1200 Mesh Wi-Fi System 2 Pack, designed to eliminate dead zones and deliver seamless coverage across up to 160 m². Perfect for South African households, this dual-band Wi-Fi 5 solution supports up to 128 connected devices, ensuring smooth streaming, video calls, and browsing for the entire family. With compact design and dedicated Ethernet ports for wired connections, it is an ideal choice for modern homes needing reliable performance.

Don't let weak signals disrupt your day; secure a stronger, more stable connection today. Buy now to experience uninterrupted internet access throughout every room in your home.

Performance tier:Mid-Range Home Mesh System

Uses:Whole-home coverage, streaming, video conferencing, smart home connectivity, wired device connections

Overview:

The Cudy AC1200 Mesh Wi-Fi System in a convenient 2-pack is designed to eliminate dead zones and deliver reliable internet coverage across homes up to 160 square meters. By utilizing two M1200 units that work seamlessly together, this system ensures every room receives strong signal strength, making it ideal for modern South African households where streaming, video calls, and remote work require consistent connectivity. The AC1200 speed class combined with dual-band Wi-Fi 5 technology provides a balanced network environment, allowing multiple devices to operate simultaneously without the congestion often found in older single-router setups.

Description:

This mesh Wi-Fi system offers seamless whole-home coverage with a sleek white design that fits easily into any decor. It supports up to 128 connected devices and includes dual Ethernet ports on each unit for stable wired connections to PCs, consoles, or smart TVs. The compact dimensions of 8.5 x 8.5 x 8.65 cm make it perfect for discreet placement on shelves or desks.

Features:

Coverage and Performance

Say goodbye to the frustration of losing signal when moving from the lounge to the bedroom or patio. This system is engineered to provide a single, unified network that spreads your connection across up to 160 square meters. The dual-band architecture separates traffic onto two different frequency bands, which helps keep busy households online smoothly without

devices competing for bandwidth on the same channel.

The AC1200 speed class ensures you have enough throughput for everyday activities like high-definition streaming and web browsing. With a capacity to handle up to 128 connected devices, this mesh system offers significant headroom for growing families with numerous phones, laptops, tablets, and smart home gadgets all needing internet access at once.

Wired Connectivity and Design

While wireless convenience is key, certain devices perform better on a direct connection. Each unit in the M1200 2PACK -2 pack comes equipped with two 10/100 Mbps RJ45 Ethernet ports that support Auto WAN/LAN functionality. This flexibility allows you to connect desktop PCs, gaming consoles, or smart TVs directly for maximum stability and speed.

The physical design is compact enough to blend into your living space without dominating the room. Measuring just 8.5 x 8.5 x 8.65 cm and weighing 0.271 kg, these units are lightweight and can be easily placed on a shelf or desk. The white finish complements most interiors while the streamlined shape ensures they do not obstruct foot traffic.

Key Specifications

- Coverage: Up to 160 m² with two units working together
- Wi-Fi Standard: Wi-Fi 5 AC1200 Dual-Band
- Capacity: Supports up to 128 connected devices
- Ethernet Ports: 2x 10/100 Mbps RJ45 per unit with Auto WAN/LAN
- Dimensions: 8.5 x 8.5 x 8.65 cm (L x W x H)
- Pack Contents: Includes two M1200 units, power adapters, and an Ethernet cable

What's in the Box

The package includes everything needed to get your mesh network running quickly. You will receive two Cudy AC1200 Mesh Wi-Fi units, each accompanied by a dedicated power adapter for reliable operation. Additionally, one Ethernet cable is provided for initial setup or connecting a wired device directly to the system, along with an installation guide to help you configure your network effortlessly.

Choosing Cudy means selecting routers and mesh systems where capabilities are clearly documented, making it easier to pick the right solution for your needs. This 2-pack configuration ensures robust performance throughout your property without compromising on style or ease of use.

FAQ

What is the total coverage area for this mesh system?

The Cudy AC1200 Mesh Wi-Fi System 2 Pack provides up to 160 m² of coverage using two M1200 units working together.

Can I connect wired devices like a PC or console to this mesh system?

Yes, each unit includes 2x 10/100 Mbps RJ45 Ethernet ports with Auto WAN/LAN flexibility for connecting desktop PCs, consoles, or smart TVs.

How many devices can be connected to the network simultaneously?

This system supports up to 128 connected devices on one network, making it suitable for busy households with multiple gadgets.

What Wi-Fi standard does this router support and is it dual-band?

The unit operates on the Wi-Fi 5 standard in the AC1200 speed class and features dual-band operation to help manage device traffic efficiently.

How large are the units and do they come with power adapters?

Each white unit measures 8.5 x 8.5 x 8.65 cm for compact placement, and the box includes a power adapter for each M1200 unit along with one Ethernet cable.
