cost-effective solution for frequently changing data. Verbatim's advanced recording layer technology helps deliver reliable performance and long-term usability for both home and professional applications.

Performance tier:Mainstream Rewritable Storage

Uses:Data backup, file transfer, music recording, photo storage, document archiving, temporary storage

Description

The Verbatim 8X-12X 700MB CD-RW 10 Pack is a practical storage solution for users who require reusable optical media. Unlike standard write-once discs, CD-RW technology allows content to be erased and recorded again, making these discs suitable for dynamic storage requirements and recurring backup tasks.

Each disc provides up to 700MB of storage capacity or approximately 80 minutes of recording time. The discs support recording speeds from 8X to 12X and are compatible with a wide range of CD-RW capable drives and recorders. This makes them suitable for storing documents, presentations, software files, digital photographs, music collections, and temporary project data.

Verbatim's recording technology is designed to support multiple rewrite cycles while maintaining reliable read and write performance. The durable protective layer helps safeguard recorded content and supports long-term storage requirements. Whether used in the office, at home, or in educational environments, these discs provide a flexible and cost-effective data storage option.

Features

The Verbatim CD-RW media offers dependable performance and reusable storage functionality.

- 700MB storage capacity per disc.
- Supports up to 80 minutes of recording time.
- High-speed recording support from 8X to 12X.
- Rewritable media allows multiple erase and rewrite cycles.
- Suitable for data, music, photos, and document storage.
- Scratch-resistant protective surface.
- Compatible with many CD-RW capable drives and recorders.
- Convenient 10-disc pack.
- Reliable recording layer technology for consistent performance.
- Ideal for backups, archiving, and temporary file storage.

Rewritable for Multiple Uses

When drive manufacturers test their products, they use Verbatim media. It's the global No.1 for a reason - guaranteed quality! Due to the extensive research and development undertaken over the past 50 years, Verbatim is able to provide the highest quality discs which ensure that all your data will be safely stored and will last a lifetime.

Long Lifetime

Optical discs provide the best solution for long-term safe and secure storage of your important files - ideal for all your precious photos, videos and documents that you want to keep forever. They are dust and water resistant and can withstand wide changes in temperature and humidity.

Multiple-uses

Verbatim rewritable discs can be written and rewritten over and over again. SERL technology allows continual rewrites without the loss of quality or sound degradation.

What's in the Box

- 10 x Verbatim 700MB CD-RW discs

Specifications

- Brand: Verbatim
- Media type: CD-RW
- Capacity: 700MB per disc
- Recording time: 80 minutes

- Rewritable: Yes
- Rewrite cycles: Minimum 1000 rewrites
- Surface: Scratch resistant
- Pack quantity: 10 discs
- Packaging: Spindle pack
- Technology: SERL recording layer technology
- Suitable for: Data storage, backups, music, photos, archives
- Manufacturer part number: 43480

FAQ

What can I store on a Verbatim 700MB CD-RW disc?

You can store documents, photos, music files, software, presentations, backups, and other digital data up to the available 700MB capacity.

Can these discs be reused?

Yes. CD-RW media can be erased and rewritten multiple times, making it suitable for recurring storage and backup tasks.

What recording speeds are supported?

These discs support recording speeds between 8X and 12X when used with compatible CD-RW drives.

How much audio can be recorded on each disc?

Each disc supports up to 80 minutes of audio recording, depending on the recording format used.

Are these discs suitable for data backups?

Yes. The rewritable design makes them ideal for creating and updating backup copies of important files.

How many discs are included in the package?

The package contains 10 Verbatim CD-RW discs.

Do these discs require a compatible CD-RW drive?

Yes. Recording and rewriting functions require a drive that supports CD-RW media.
