Corsair Dominator Platinum 64Gb (16Gb x 4) DDR4-2400 (pc4-19200) CL14 1.2v Desktop Memory Module

Product Overview

Corsair CMD64GX4M4A2400C14 Dominator Platinum with DHX technology + with white LED light bar + DHX Pro/ corsair link, with 8-layer PCB, 64Gb(16Gb x 4) kit - support Intel XMP (eXtreme Memory Profiles), DDR4-2400 (pc4-19200), CL14, 1.2v - 288pin

Specifications

Overview:

Dominator Platinum high-performance DDR4 memory is designed for world-class Intel X99 and 100 Series system builds. It's built with hand-screened ICs and incorporates patented DHX cooling for reliable performance in demanding environments. And, extracting maximum performance is easy -- built-in XMP 2.0 support gives you trouble-free, automatic overclocking. Dominator Platinum modules work with the Corsair Link system for temperature monitoring, and you can even enhance the subtle white LED lighting by adding a light bar kit to match or contrast it with your system.

Features:

Designed for Intel X99 and 100 Series systems

Dominator Platinum DDR4 modules are designed to take advantage of the improved clock speeds, bandwidth, and capacity of the DDR4 platform. Our modules are tested across multiple X99 and 100 Series motherboards for reliably fast performance.

XMP 2.0 support for trouble-free, automatic overclocking

Dominator Platinum is fully compatible with the XMP 2.0 standard supported by Intel X99 and 100 Series-based motherboards. Turn it on, and it will automatically adjust to the fastest safe speed for your Dominator Platinum kit. You'll get amazing, reliable performance while maintaining full data integrity.

Get more performance and Corsair Link control with a Dominator Airflow Platinum LED fan

Dominator Platinum DDR4 modules already have generous overclocking headroom, but to push them to extreme performance levels, you need active cooling. The Dominator Airflow Platinum is designed for quiet operation and optimal cooling efficiency, and it works with Corsair Link for customization and control. It's included with some Dominator Platinum kits and optional with others. With Corsair Link, you can control PWM fan speed directly from your Windows desktop, and change the built-in LEDs from their default red to any of 16.8 million colors to indicate fan speed, ambient system temperature, or GPU temperature. Or,

just set the LED lighting color to match your system or your style.

Compatibility tested across X99 and 100 Series motherboards for reliably fast performance

Part of our exhaustive testing process includes performance and compatibility testing on most every X99 and 100 Series motherboard on the market - and a few that aren't.

Compatibility:

Intel X99 and 100 Series platforms

Specifications

Product Code	ME-CD41624P14x4
Fan Included	No
Heat Spreader	DHX
Memory Configuration	Dual / Quad Channel
Memory Series	Dominator Platinum
Memory Type	DDR4
Package Memory Format	DIMM
Package Memory Pin	288
Performance Profile	XMP 2.0
Memory Size	64GB Kit (4 x 16GB)
SPD Latency	15-15-15-36
SPD Speed	2133MHz
SPD Voltage	1.2V
Speed Rating	PC4-19200 (2400MHz)
Tested Latency	14-16-16-31
Tested Speed	2400MHz
Tested Voltage	1.2V
