Specifications

Overview:

Hyperx predator ddr4

Prey on the competition with hyperx predator ddr4, offering low cas latency and the most aggressive timings on high-speed modules for a new generation of performance. Hyperx predator's intel xmp profiles are optimised for x99 motherboards for compatibility and easy overclocking. Like you, predator ddr4 keeps its cool while gaming, for a cooler and quieter pc. Stand out from the crowd and maximise heat dissipation with predator's signature tall heat sink, now in black
