Specifications

About this product

The Brother MK-231 Black-on-White Tape is a genuine 12mm non-laminated label tape designed for Brother P-touch label makers. It delivers sharp black text on a white background for clear indoor labeling in offices, homes, schools, and workshops. With an 8m tape length and reliable adhesive backing, this tape is ideal for organizing files, shelves, storage boxes, cables, and equipment. Buy online today for quick delivery in South Africa.

Overview Summary

Brother MK-231 Black-on-White Label Tape 12mm x 8m

The Brother MK-231 label tape is a practical and reliable solution for everyday labeling needs. Designed for compatible Brother P-touch label makers, this genuine M Series tape produces crisp black text on a white background for easy readability. The 12mm width is suitable for general labeling applications in offices, homes, classrooms, and retail environments.

This non-laminated tape uses thermal transfer printing technology to create professional-looking labels for flat, dry indoor surfaces. The standard adhesive backing provides dependable attachment to folders, shelves, containers, office equipment, and storage systems. Its easy drop-in cassette design allows quick installation and hassle-free operation.

Performance tier: Everyday labeling

Uses: Office labeling, home organization, school supplies, storage containers, shelves, cables, hobby projects

Description

The Brother MK-231 Black-on-White Tape is designed for reliable indoor labeling applications where clear and easy-to-read labels are required. Featuring a 12mm tape width and 8m tape length, this genuine Brother M Series tape is suitable for everyday use in homes, offices, schools, and workspaces.

Using thermal transfer printing technology, the MK-231 tape produces high-contrast black text on a white background for

improved visibility and professional presentation. The non-laminated construction makes it ideal for flat, dry indoor surfaces such as folders, storage containers, shelves, stationery, and office equipment.

The tape cassette is designed for quick installation into compatible Brother P-touch label makers that support M Series tapes. Its standard adhesive provides dependable sticking performance while allowing efficient organization and identification of personal or professional items. Whether used for filing systems, classroom supplies, cable identification, or general storage management, the Brother MK-231 tape delivers clean and consistent labeling results.
