ComX Computers

Product Specification Sheet

This flash drive is well suited for storing documents, photos, presentations, music, and other everyday files. Its compact design makes it an excellent choice for laptops, ultrabooks, car audio systems, televisions, and media players where a standard USB drive may be too large.

Performance tier:Entry level portable storage

Uses:File storage, document backup, media playback, laptop storage expansion, TV media playback, car audio, portable file transfer

Overview

Easily add more storage options to your notebook computer or car stereo with Verbatim's stay-in Store ' Go Nano USB drive. Allowing storage in a drive that fits in the body of a Nano receiver, the Nano USB drive features a snag-free, low-profile design that is small enough to leave in your laptop or stereo, without getting in the way! Perfect for use in your laptop or car, this dimesized drive can be easily removed for fast file sharing.

Description

The Verbatim Store And Stay 16GB USB Flash Drive is designed for users who need reliable portable storage in an exceptionally compact format. Its nano sized housing allows the drive to remain connected to compatible devices with only a small portion extending beyond the USB port, reducing the risk of accidental knocks during normal use.

The USB 2.0 interface offers straightforward plug and play functionality with compatible Windows and Mac systems while remaining backward compatible with USB 1.1 and compatible with USB 3.2 Gen 1 USB-A ports. The drive is suitable for storing and transferring everyday files including office documents, digital photos, music, presentations, and videos.

Its compact footprint makes it particularly useful for laptops, ultrabooks, televisions, media players, and vehicle entertainment systems where a permanently connected storage device is preferred.
