Specifications

Features:

iPad Pro. Thinpossible.

The new iPad Pro is impossibly thin, featuring outrageous performance with the Apple M4 chip, a breakthrough Ultra Retina XDR display, and superfast Wi-Fi 6E. Along with Apple Pencil Pro and Magic Keyboard, it brings endless versatility, creativity and productivity to your fingertips.

11-inch Ultra Retina XDR Display

Ultra Retina XDR delivers extreme brightness and contrast as well as exceptional colour accuracy, and features advanced technologies like ProMotion, P3 wide colour and True Tone. Plus a nano-texture glass option is available in 1TB and 2TB configurations.

Performance and Storage

Up to 10-core CPU in the M4 chip delivers powerful performance, while the 10-core GPU provides blazing-fast graphics. And with all-day battery life, you can do everything you can imagine on iPad Pro. Up to 2TB of storage means you can store everything from apps to large files like 4K video.

iPadOS + Apps

iPadOS makes iPad more productive, intuitive and versatile. With iPadOS, run multiple apps at once, use Apple Pencil to write in any text field with Scribble, and edit and share photos. Stage Manager makes multitasking easy with resizeable, overlapping apps and external display support. iPad Pro comes with essential apps like Safari, Messages and Keynote, with over a million more apps available on the App Store.

Apple Pencil and Magic Keyboard

Apple Pencil Pro transforms iPad Pro into an immersive drawing canvas and the world's best note-taking device. Apple Pencil (USB-C) is also compatible with iPad Pro.

Magic Keyboard for iPad Pro features a thin and light design, great typing experience and a built-in glass trackpad with haptic feedback, while doubling as a protective cover for iPad. Accessories sold separately.

Advanced Cameras

iPad Pro features a landscape 12MP Ultra Wide front camera that supports Centre Stage for videoconferencing or epic Portrait mode selfies. The 12MP Wide back camera with adaptive True Tone flash is great for capturing photos or 4K video with ProRes support. Four studio-quality microphones and a four-speaker audio system provide rich audio. And AR experiences are enhanced with the LiDAR scanner to capture a depth map of any space.

Connectivity

Wi-Fi 6E gives you fast wireless connections for quick transfers of photos, documents and large video files. And when you're away from Wi-Fi, superfast 5G gives you the flexibility to stay connected in more places. Connect to external displays, drives and more using the USB-C connector with support for Thunderbolt / USB 4.

Unlock and Pay with Face ID

Unlock your iPad Pro, securely authenticate purchases, sign in to apps, and more - all with just a glance.
