Specifications

Features:

Iconic. Now supersonic.

AirPods 4 with Active Noise Cancellation. Featuring a totally transformed audio experience with Adaptive Audio and Transparency mode, and an updated fit for all-day comfort.

Redesigned for exceptional fit and audio performance. The powerful H2 chip delivers clearer calls with Voice Isolation and a new, hands-free way to interact with Siri.

Personalized Spatial Audio with dynamic head tracking places sound all around you. Rated IP54 dust, sweat, and water resistant. USB-C charging and up to 30 hours of listening time with the case. And Find My to help you locate your AirPods 4.

Rebuilt for Comfort

AirPods 4 have been redesigned for exceptional all-day comfort and greater stability. With a refined contour, shorter stem, and quick-press controls for music or calls.

Active Noise Cancellation

AirPods 4 with Active Noise Cancellation help reduce outside noise before it reaches your ears, so you can immerse yourself in what you're listening to.

Hear the world around you

The powerful H2 chip comes to AirPods 4. Adaptive Audio seamlessly blends Active Noise Cancellation and Transparency mode - which lets you comfortably hear and interact with the world around you exactly as it sounds - to provide the best listening experience in any environment. And when you're speaking to someone nearby, Conversation Awareness automatically lowers the volume of what's playing.

Personalised Spatial Audio

Personalised Spatial Audio with dynamic head tracking places sound all around you, creating a cinema-like listening experience for music, TV shows, movies, games and more.

Improved Sound and Call Quality

Voice Isolation improves the quality of calls in loud conditions.

Using advanced computational audio, it reduces background noise while isolating and clarifying the sound of your voice for whoever you're speaking to.

Magical Experience

Just say "Siri" or "Hey Siri" to play a song, make a call or check your schedule. And with Siri Interactions, now you can respond to Siri by simply nodding your head yes or shaking your head no. Pair AirPods 4 by simply placing them near your device and tapping Connect on your screen. Easily share a song or show between two sets of AirPods.4 A skin-detecting sensor knows to play audio only when you're wearing AirPods and pauses when you take them off. And you can track down your AirPods and Charging Case with the Find My app.

Long Battery Life

With Active Noise Cancellation enabled, get up to 4 hours of listening time on a single charge and up to 20 hours using the case. And you can get up to 30 hours of total listening time without Active Noise Cancellation enabled.

Redesigned Case

The Charging Case is the smallest in the industry with wireless charging. Charge with an Apple Watch charger, USB-C Charge Cable or Qi-certified charger.

Dust, Sweat and Water resistant

AirPods 4 and the Charging Case are rated IP54 dust, sweat and water resistant, so they'll withstand rain and heavy workouts.
