Logitech 910-001793 M90 Mouse

## Product Overview

Logitech 910-001793 M90 Mouse, black - 3 buttons, 1000dpi - usb - retail pack

## Specifications

### About this product

The**Logitech M90 Corded Mouse (981-000406)**offers reliable plug-and-play performance with a precise 1000 DPI optical sensor, ambidextrous full-size shape and a wired USB-A connection for consistent tracking on work-oriented surfaces.

## Overview Summary

**Product title:**Logitech M90 Corded Mouse - Black

Designed for everyday desktop computing, this wired mouse from Logitech delivers straightforward functionality with quality construction. Its 1000 DPI optical sensor enables smooth, accurate cursor control, making text selection and general navigation effortless. With USB-A connectivity, simply plug into a compatible port and get started - no driver installation required.

Ergonomically shaped for either hand, the M90 is comfortable for extended use, whether at the workstation or in a home office. Its ambidextrous design and reliable build quality ensure this mouse works solidly for everyday computing tasks such as web browsing, office productivity, data entry or light-duty multi-tasking.

**Performance tier:**Entry-level / Everyday use

**Uses:**Office work, basic computing, home productivity, web browsing

## Description

The Logitech M90 corded mouse is crafted for reliable everyday performance. Its full-size ambidextrous body fits naturally in either hand, providing a comfortable grip for extended use. The optical sensor tracks at 1000 DPI, offering responsive cursor movement across a variety of surfaces - whether you are working on spreadsheets, browsing the web, or managing emails. Because it uses a standard USB-A cable connection, setup is effortless: plug into your PC or laptop and the mouse is ready to use without installing additional software. The black finish and minimalist styling integrate well with any workspace environment, from offices to classrooms to home-studies. Built by Logitech, a trusted brand in peripherals, the M90 delivers durability and consistent performance in a cost-effective package.

## Features

Here are the key features and benefits of the Logitech M90:

- Plug-and-play USB-A interface: No driver installation required, works immediately when connected.
- 1000 DPI optical sensor: Ensures smooth and accurate tracking for everyday tasks.
- Ambidextrous full-size shape: Comfortable for both left- and right-handed users, suitable for long-term use.
- Durable wired design: Wired connection means consistent power and no battery changes; ideal for extended sessions.
- Minimalistic styling: A clean black finish that complements a wide range of workspace settings.

**Just the basics**
Setup is fast and easy. You can just plug the cable into a USB port and use it right away.

**No false moves**
You can't go wrong with precise optical tracking. It's a smooth mover-with or without a mouse pad.

**From the mouse experts**
You get the quality and design we've built into more than a billion mice.

**Simple to set up and use**
Setup is fast and easy-just plug the cable into a USB port. There's no software to install. And since it's corded, you can just plug the cable into a USB port and use it right away.

**Full-size comfort, ambidextrous design**
Designed to keep either hand happy. So you'll feel comfortable, even after hours of use.

**High-definition optical tracking**
You'll enjoy responsive, smooth cursor control, precise tracking and easy text selection thanks to high-definition optical tracking (1000 dpi).

**Built by Logitech**
This mouse comes with the quality and design we've built into more than a billion mice, more than any other manufacturer.

## FAQ

### Is the Logitech M90 compatible with macOS and Windows?

Yes. The mouse connects via USB-A and offers plug-and-play functionality with no driver installation required, making it compatible with Windows, macOS and many popular Linux distributions.

### Does the mouse support adjustable DPI settings?

No. The Logitech M90 comes with a fixed 1000 DPI optical sensor which is suitable for general computing tasks rather than high-precision gaming or professional design work.

### Is this mouse suitable for gaming?

This model is designed for everyday productivity, office and home-use. While it can handle casual usage, it lacks advanced features found in gaming mice such as high DPI, customizable buttons, macro support or RGB lighting.

### What cable length does the mouse have and is it durable?

Specific cable length is not listed in official public specs. However the wired design offers consistent connectivity and no battery maintenance, which makes it reliable for day-to-day use.

### Is the mouse comfortable for left-handed users?

Yes - the full-size ambidextrous shape accommodates both left and right-hand users, making it a versatile choice for shared environments or multi-user settings.
