Specifications

About this product

The Goldtool NET-TCT-320 HDMI Cable Tester is a compact and reliable tool that checks all signal pins of HDMI cables with easy-to-read LED indicators. Buy online today for fast delivery anywhere in South Africa.

Overview Summary

Goldtool NET-TCT-320 HDMI Cable Tester is designed for quick and accurate HDMI cable testing. It detects wiring faults, continuity issues, and open or short circuits across all HDMI signal pins. The tester is composed of a main unit and a detachable remote unit, allowing users to test long cables easily and efficiently.

LED indicators display the status of each connection, providing immediate feedback. With an automatic power-on feature, this tool ensures simple operation without the need for complex setup. It is ideal for installers, technicians, and home users who need to verify HDMI cable integrity.

Performance tier: Professional

Uses: HDMI cable testing, AV installation, home theater setup, signal troubleshooting, electronic repair

Description

The Goldtool NET-TCT-320 HDMI Cable Tester ensures reliable HDMI connectivity by testing all signal pins on HDMI cables. Its dual-unit design includes a main testing body and a remote unit connected via the cable under test, allowing users to diagnose both short and long HDMI cables with ease. LED indicators on both units display real-time test results, helping users identify wiring faults instantly. The tester features automatic power-on functionality, saving time and simplifying operation for both professionals and casual users. Built for portability and precision, the NET-TCT-320 is an essential tool for AV technicians, installers, and home entertainment enthusiasts who need dependable HDMI verification.

FAQ

Can the Goldtool NET-TCT-320 test all HDMI signal pins?

Yes. The NET-TCT-320 tests all HDMI signal pins to ensure that cables are wired correctly and free of open or short circuits.

Does the tester show results with LED lights?

Yes. The tester uses LED indicators on both the main and remote units to show each pin's connection status clearly.

Is the NET-TCT-320 easy to use for beginners?

Absolutely. The unit powers on automatically when connected, allowing quick plug-and-test operation without complicated setup.

Do you deliver this product within South Africa?

Yes. Delivery is available throughout South Africa. Collection is also possible for customers in South Africa, Zimbabwe, Namibia, and Mozambique.

Who can benefit from using this HDMI tester?

This tester is ideal for AV technicians, electronics installers, and users who frequently set up or maintain home theater systems or HDMI-based devices.
