

NET-TL-MR3420

TP-Link TL-MR3420 300Mbps Wireless N USB 3G/4G Router (3G/4G dongle required for 3G/4G)

Product Overview

TP-Link TL-MR3420 300Mbps Wireless N USB 3G/4G Router (Requires a USB 3G/4G modem - no SIM card slot in device)

Specifications

Overview:

Share the freedom of 3G/4G! The TL-MR3420 3G/4G Wireless N Router allows users to share a 3G/4G mobile broadband connection with family and friends via wired or wireless connections. By connecting a 3G/4G USB modem to the routers, a Wi-Fi hotspot is instantly established, via which multiple devices can access the Internet and share data and applications wirelessly.

Features:

Enjoy 3G/4G Wireless Sharing

TL-MR3420 features blazing 4G speeds and backward compatible with 3G modems, allowing users to share a 3G/4G mobile broadband with family and friends via wired or wireless connection.

Tests in the Field-High Compatibility

Compatibility is the most important aspect to consider when you're selecting a 3G/4G router. To ensure the best compatibility between our routers and the modem you would use with the router, TP-LINK has made certain that our 3G/4G Routers are compatible with the ISPs in the regions in which they are sold. We have teams around the globe continually testing our Routers with newly emerged modems to ensure that end users can feel confident that their routers will operate flawlessly where they live and work.

Comprehensive 3G/4G and WAN Connection Backup Strategy

The TL-MR3420 stands out with its 3G/ 4G and WAN connection back-up, which keeps users online when one connection fails. TP-LINK's 3G/4G Router provides users with both 3G/4G Preferred and WAN Preferred back-up modes, while other brands provide one or the other. This brings users a high degree of flexibility when users are setting up the networks with considering connection costs and length of downtime.

Wireless N Speed & Range

Complying with the IEEE 802.11n standard, the TL-MR3420 can establish a wireless network with transmission speeds of up to 300Mbps, while mitigating data loss over long distances and through obstacles in a small office or a large apartment, even

in a steel-and-concrete building. Above all, users can easily pick up their wireless network's signal at longer distances from the router, where with legacy 11g products they would have to be much closer.

WPA / WPA2 Encryptions

WPA/WPA2 encryption standards ensure your wireless connection is safe from intruders.

Specifications	
Product Code	NET-TL-MR3420
HARDWARE FEATURES	
Interface	1 USB 2.0 Port for LTE/HSPA+/HSUPA/HSDPA/UMTS/EVDO USB Modem
	1 10/100Mbps WAN Port, 4 10/100Mbps LAN Ports, support the auto-Negotiation and auto-MDI/MDIX
Button	WPS/Reset Button
	Wireless On/Off Switch
	Power On/Off Button
External Power Supply	12VDC/1A
Dimensions (W x D x H)	8*5.4*1.7 in. (204*138*44 mm)
Antenna Type	Omni directional, Detachable, Reverse SMA
Antenna Gain	2x5dBi
WIRELESS FEATURES	
Wireless Standards	IEEE 802.11b, IEEE 802.11g, IEEE 802.11n
Frequency	2.4-2.4835GHz
Transmit Power	
Wireless Security	Support 64/128 bit WEP, WPA-PSK/WPA2-PSK
	Wireless MAC Filtering
SOFTWARE FEATURES	
Security	NAT Firewall, SPI Firewall, MAC / IP / Packet / Application / URL Filtering, Denial of Service(DoS), SYN Flooding, Ping of Death
Management	Web Based Configuration(HTTP), Web Based Firmware Upgrade
OTHERS	
Certification	CE, FCC, RoHS

Product Specification Sheet

Package Contents	3G/4G Wireless N Router TL-MR3420
	2 Antennas
	Power supply unit
	Ethernet Cable
	Resource CD
	Quick Installation Guide
System Requirements	Microsoft Windows 98SE, NT, 2000, XP, Vista Windows 7, 8, 10, MAC OS, NetWare, UNIX or Linux.
Environment	Operating Temperature: 0 degreesC~40 degreesC (32 degreesF~104 degreesF)
	Storage Temperature: -40 degreesC~70 degreesC (-40 degreesF~158 degreesF)
	Operating Humidity: 10%~90% non-condensing
	Storage Humidity: 5%~90% non-condensing
