Specifications

About this product

The PSG E-Sports KR1 is a professional wired mechanical keyboard featuring Gateron switches, MX-compatible 5-pin hot-swappable sockets, a durable aluminum top plate, and customizable RGB lighting with four onboard profiles for high-performance gaming and typing.

Overview Summary

PSG E-Sports KR1 Wired Mechanical Keyboard delivers professional-grade performance and precision for gamers and creators. Built with Gateron mechanical switches, the KR1 provides a smooth, responsive keypress feel and long-lasting durability under intense gaming conditions.

The keyboard features MX-compatible 5-pin hot-swappable sockets, allowing users to easily change switches without soldering. Its sturdy aluminum top plate offers excellent rigidity, while the standard bottom-row layout ensures compatibility with aftermarket keycaps. With onboard software and four customizable lighting profiles, users can tailor the keyboard to match their setup and preferences.

Performance tier: Professional

Uses: gaming, esports, productivity, typing, custom keyboard setups

Description

The PSG E-Sports KR1 mechanical keyboard is engineered for professional-grade gaming and precision typing. It combines premium build quality with user flexibility, featuring Gateron mechanical switches known for their smooth actuation and consistent feel. With MX-compatible 5-pin hot-swappable sockets, users can change switches quickly to customize their typing experience without any soldering required.

The KR1's full 104-key layout provides complete key coverage for both gaming and work, and its standard bottom-row design supports a wide range of aftermarket keycaps. The keyboard is built on a robust aluminum top plate for long-term durability and stability, while its customizable lighting effects offer four onboard profiles accessible via user-friendly software. Designed with performance and style in mind, the KR1 delivers reliable input and advanced customization suited for modern gamers and enthusiasts.

Features

Main features that make the PSG E-Sports KR1 a professional gaming choice:

- Gateron mechanical switches: Smooth, responsive key feel designed for fast-paced gaming and typing accuracy.
- MX-compatible hot-swappable sockets: 5-pin support allows easy switch replacement without soldering.
- Durable aluminum top plate: Rigid and long-lasting design adds structural integrity and premium feel.
- Standard 104-key layout: Full-size keyboard offering all function keys, numpad, and complete control set.
- Lighting effects: Four onboard customizable RGB profiles adjustable via software for personal style.
- Standard bottom-row layout: Supports a wide range of aftermarket keycaps for personal customization.
- Software control: User-friendly software for lighting and key mapping options.
