Specifications

Overview:

Keychron Double Shot PBT OSA Full Keycap Set - Black/White

The Keychron Double-Shot PBT OSA Full Keycap Set is designed to bring both durability and style to your mechanical keyboard setup. Featuring an OSA profile, which combines the height of OEM keycaps with a gently spherical angled surface, this keycap set offers a comfortable and ergonomic typing experience. The double-shot legends ensure long-lasting visibility, preventing wear and fading over time while adding a unique flair to your keyboard.

Made from high-quality PBT material, these keycaps provide excellent oil resistance, preventing the glossy sheen that often appears with prolonged use. This enhances the typing feel, offering a more satisfying and consistent keystroke. The robust construction ensures that your keycaps remain in pristine condition for years to come, making them a reliable choice for any keyboard enthusiast.

With a thickness of 1.3mm, these keycaps are designed for stability and precision. The OSA profile delivers a tactile and comfortable experience suitable for both gaming and professional use. As a non-backlit keycap set, it emphasizes a clean and sophisticated aesthetic, making it perfect for those who prefer a minimalist desk setup.

This keycap set is widely compatible with a variety of Keychron keyboards, including the V, Q, K, L, P, and C series. Designed for MX-style switches, it ensures a secure and seamless fit. Whether you're upgrading your existing keyboard or customizing a new build, the Keychron Double-Shot PBT OSA Full Keycap Set is an excellent choice for those seeking both durability and refined design.

Features:

- OSA profile
- Durable material with legends that last
- Widely compatible with V, Q, K, L, P, and C series Keychron keyboards
- Designed for use with MX switches

WHAT'S IN THE BOX:

- Keychron Double Shot PBT OSA Full Keycap Set - Black/White x1
