Specifications

Overview Summary:

Upgrade your workspace with the PCBuilder VISTA Height Adjustable Electric Standing Desk, now available for delivery across South Africa. This premium home office solution combines sleek design with powerful functionality, featuring a quiet single-motor lift system that smoothly transitions between sitting and standing positions at the touch of a button. With a spacious 160 x 70 cm tabletop and an adjustable height range of 73 to 118 cm, it accommodates users of all sizes while supporting multiple monitors and heavy equipment with ease.

Safety and durability are at the core of this desk's design, featuring built-in collision avoidance technology and overload protection to ensure safe operation every day. The intuitive control panel allows you to save three preferred heights for instant adjustment, making it perfect for shared workspaces or individuals who prefer frequent position changes throughout their day. Designed with robust steel construction and a durable wood composite top, this desk offers the stability needed for demanding tasks.

Enhance your daily routine with better posture and increased energy levels by investing in an ergonomic workspace that adapts to you. Don't wait to improve your comfort and productivity; buy now and transform your home office into a dynamic environment designed for success.

Performance tier:Standard Electric

Uses:Home Office, Corporate Workspaces, Gaming Stations, Creative Studios, Remote Work

Overview:

The PCBuilder VISTA Height Adjustable Electric Standing Desk (Part Number PCB-SD-VISTA) is designed to transform your workspace by prioritizing both comfort and productivity. This desk allows you to effortlessly transition between sitting and standing positions, supporting a healthier lifestyle through smooth electric height adjustments. Whether used in a home office or a professional setting, the VISTA provides a spacious 160 x 70 cm surface that accommodates multiple monitors and equipment without compromising stability. With features like collision avoidance and overload protection, users can enjoy peace of mind while working at their ideal height.

Description:

The PCBuilder VISTA Height Adjustable Electric Standing Desk combines robust engineering with modern aesthetics to deliver a reliable work solution. Powered by a single-motor lift system, it ensures quiet and efficient operation while supporting up to 80kg of load capacity. The intuitive control panel allows for easy switching between three preset heights, making it simple to customize your setup throughout the day. Built from durable wood and steel with a sleek black powder-coated finish, this desk is designed to withstand daily use while maintaining stability even at maximum extension.

Features:

Key Benefits and Design

Elevate your daily routine with a desk that adapts to your needs. The VISTA offers a generous work surface of 160 x 70 cm, providing ample room for laptops, monitors, and office accessories. Its single-motor mechanism is engineered for everyday reliability, ensuring smooth transitions between sitting and standing positions without noise or vibration. Safety is paramount with built-in collision avoidance technology that detects obstacles and stops movement to prevent damage. The desk also includes overload protection, safeguarding the motor and structure from excessive weight.

The control panel features six buttons including three memory keys, allowing you to save your favorite heights for quick access. With a lifting speed of 20mm/s, adjustments are made swiftly, minimizing downtime between tasks. Constructed from high-quality wood and steel, the tabletop is 15mm thick, ensuring a solid foundation for all your equipment. The frame finish utilizes durable powder coating in black to resist scratches and maintain a professional appearance over time.

Technical Specifications:
