

POWERCORD-1

Microworld 3-pin small head SA plug power cord for use with inverter IEC C13 connection

Product Overview

Microworld Power cord for use with inverter, Small head plug, Not Standard South African plug (Type D plug SANS 164-3) | Cable type: 220V, 230V, 240V Power cable | Cable configuration: 3-pin South African SANS 164-3 Type D small head inverter plug to IEC C13 kettle connector | Cable length: 1.5m | Maximum rating: 250V 10A

Specifications

Overview Summary:

The Microworld power cord is a reliable solution for connecting your inverters and UPS units efficiently. With a 1.5-meter length and compact small head plug, it ensures a tidy installation while maintaining stable power flow. Perfect for home or office setups, this cord provides secure connectivity without clutter, helping you keep your devices powered safely. Buy now to improve your power setup with a durable, easy-to-use solution.

Designed for inverters and UPS units that require a small head plug, this power cord is made from quality materials to ensure long-term reliability. Its compact design allows flexible placement of your devices without bending the cord, making it a practical choice for tight spaces. Shop now and enjoy a smooth, uninterrupted power experience.

Performance tier:Standard

Uses:Inverter connection, UPS connection, home electronics, office electronics, compact power setups

Overview:

Microworld Power Cord Compatible with Inverters and UPS

This 1.5-meter power cord is designed specifically for use with inverters and UPS systems. Its compact small head plug fits neatly at the back of your devices, ensuring a secure connection. Please note, this cord does not use the standard South African plug type.

Description:

The Microworld power cord offers reliable connectivity for inverters and UPS units. With its 1.5-meter length and small head design, it provides a tidy installation while preventing cable clutter. Ideal for home or office setups, this power cord ensures

Product Specification Sheet

stable power transmission for uninterrupted device performance.

Features:

Compact Design for Tight Spaces

The small head plug is perfect for devices where space is limited. It allows for easy placement of the inverter or UPS without bending or straining the cord.

Durable Construction for Long-Term Use

Made with quality materials, this power cord withstands regular use while maintaining consistent power flow. Its sturdy design ensures durability and safety during operation.

Convenient Length for Flexible Setup

At 1.5 meters, the cord provides enough reach to connect your inverter or UPS to nearby power outlets without excess slack.

Important Note on Compatibility

This power cord is not compatible with standard South African plugs. It is specifically designed for inverters and UPS units requiring a small head plug connection.
