Complete your workstation with the Keychron PR52 Silicone Palm Rest. Buy online today for comfortable everyday computing in South Africa.

Overview Summary

Keychron PR52 Black 100% Silicone Palm Rest

The Keychron PR52 is a full-size silicone palm rest designed to complement 100% layout mechanical keyboards. Its soft, cushioned silicone construction provides a comfortable resting surface for your palms and wrists, helping create a more comfortable typing position during extended computer use. The black finish offers a clean, understated appearance that fits naturally into professional, home office and gaming environments.

Featuring a hexagonal support structure, the PR52 is designed to provide stability and support while maintaining a comfortable feel. Its non-slip surface helps keep the palm rest positioned on your desk, while the easy-to-clean silicone material makes everyday maintenance simple. With dimensions of 447 x 79.5 x 18mm, it provides full-length coverage suited to compatible full-size keyboards.

Designed for selected Keychron 100% layout keyboards, the PR52 is compatible with models including the Q6 Ultra 8K, V6 Ultra 8K, Q6 HE 8K and K10 Max. It is a practical accessory for professionals, students, writers and gamers who spend extended periods typing at their desks.

Performance tier: Premium ergonomic keyboard accessory

Uses: Office typing, mechanical keyboard setups, gaming, programming, content creation, home office work, extended computer use

Description

The Keychron PR52 Black Silicone Palm Rest is a full-length ergonomic accessory designed to improve comfort when working with compatible 100% layout mechanical keyboards. Providing a dedicated resting surface in front of your keyboard, it supports a more comfortable hand position during everyday typing, gaming and other computer activities.

Constructed from high-quality silicone, the PR52 offers a soft and cushioned surface for your palms and wrists. Its comfortable material is designed for extended use, making it a useful addition for professionals who regularly work with documents, spreadsheets, emails and other keyboard-intensive applications. It is equally suitable for gamers and users who spend long periods at their computer.

The palm rest incorporates a hexagonal support structure designed to improve stability and support. Its non-slip surface helps maintain its position on your desk during regular use, while the silicone construction is easy to clean and maintain. This combination of practical design and comfortable materials makes it suitable for everyday desktop environments.

Measuring 447mm in length, 79.5mm in depth and 18mm in height, the PR52 is designed for full-size 100% keyboard layouts. It is compatible with selected Keychron keyboards, including the Q6 Ultra 8K, V6 Ultra 8K, Q6 HE 8K and K10 Max. Always check your keyboard's dimensions and layout before purchasing to ensure the correct fit.

Finished in black, the Keychron PR52 complements a wide range of mechanical keyboards and desktop setups. Whether you are upgrading your office workstation or completing a dedicated gaming setup, this silicone palm rest provides a practical combination of comfort, stability and understated styling.

Features

The Keychron PR52 combines comfortable silicone construction with a full-size design to enhance your mechanical keyboard workstation.

- Ergonomic palm support: Provides a dedicated cushioned resting surface for your palms and wrists during extended typing sessions.
- Premium silicone construction: Features a soft silicone material designed for comfortable everyday use.
- 100% keyboard layout: Full-length design specifically developed for compatible full-size keyboards.
- Hexagonal support structure: Designed to improve stability and provide consistent support.
- Non-slip surface: Helps keep the palm rest securely positioned on your desk during use.
- Easy maintenance: Silicone construction makes the surface easy to clean and maintain.
- Full-length dimensions: Measures 447 x 79.5 x 18mm to complement compatible full-size keyboards.
- Black finish: A versatile colour that complements professional, home office and gaming environments.
- Wide keyboard compatibility: Suitable for selected Keychron Q6, V6 and K10 full-size keyboard models.
- Extended typing comfort: A practical accessory for programming, office productivity, writing and gaming.

A Full-Length Palm Rest Built for 100% Layout Keyboards
The Keychron 100% Silicone Palm Rest is made for typists who use a full-size keyboard and want a dedicated place to rest their palms in front of it. It is designed for 100% layout keyboards, so it suits desks where the numpad is part of your daily workflow. At 44.7 cm long, it gives you a full-length rest to match that layout. If you spend long hours on spreadsheets, documents or gaming at your desk, this palm rest is a simple addition to your keyboard setup.

Tired of Guessing Which Palm Rest Fits?
Finding an accessory that suits your keyboard can be a hassle. This palm rest is listed as compatible with 100% layout keyboards, including the Keychron Q6 Ultra 8K, Keychron V6 Ultra 8K, Keychron Q6 HE 8K and Keychron K10 Max. If you own one of these models, you can order with confidence that it is a match. Owners of other 100% layout keyboards can use the same layout compatibility as a guide.

Silicone Construction in a Clean Black Finish
This palm rest is made from silicone and finished in black, so it blends in with most keyboard and desk setups, at home or in the office. It measures 44.7 x 7.9 x 1.8 cm and weighs 0.373 kg. That gives it a slim profile and enough weight to feel substantial on your desk. For anyone upgrading a Keychron setup or completing a new one, it is a practical accessory that does one job well.

Frequently Asked Questions

What is the Keychron PR52 Silicone Palm Rest?

The Keychron PR52 is a full-size silicone keyboard palm rest designed to provide a comfortable resting surface for your palms and wrists when using compatible 100% layout mechanical keyboards.

Which keyboards are compatible with the Keychron PR52?

The PR52 is designed for compatible 100% layout keyboards, including the Keychron Q6 Ultra 8K, Q6 HE 8K, V6 Ultra 8K and K10 Max. Check the dimensions of your keyboard to confirm compatibility before purchasing.

What material is the Keychron PR52 made from?

The Keychron PR52 is made from silicone, providing a soft, cushioned surface designed for comfortable everyday typing and gaming.

What are the dimensions of the Keychron PR52?

The Keychron PR52 measures 447 x 79.5 x 18mm, making it suitable for compatible full-size 100% keyboard layouts.

How much does the Keychron PR52 weigh?

The palm rest weighs 373g, providing a substantial full-size accessory for your desktop workstation.

Does the Keychron PR52 help improve typing comfort?

Yes. Its soft, cushioned silicone construction provides a dedicated resting surface for your palms and wrists, helping create a more comfortable hand position during extended typing sessions.

Does the Keychron PR52 have a non-slip design?

Yes. The palm rest features a non-slip surface designed to help maintain its position on your desk during regular keyboard use.

Is the Keychron PR52 suitable for gaming?

Yes. The full-size silicone palm rest is suitable for gaming setups, providing a comfortable resting surface during extended gaming sessions.

Can the Keychron PR52 be used for office work?

Yes. It is suitable for office productivity, programming, writing, data entry and other tasks involving extended keyboard use.

Is the keyboard included with the Keychron PR52?

No. The product includes the silicone palm rest only. The compatible keyboard must be purchased separately.

How do you clean the Keychron PR52 silicone palm rest?

The silicone surface is designed for easy cleaning and maintenance. Use a soft, slightly damp cloth to clean the surface and allow it to dry before use.

Is the Keychron PR52 compatible with all mechanical keyboards?

No. It is designed for compatible 100% layout keyboards. Check your keyboard's physical dimensions and layout before purchasing to ensure the 447mm palm rest provides the correct fit.
