Specifications

Overview Summary:

The Dell Pro 24 All-in-One QC24250 is a powerful 23.8-inch Full HD desktop PC built for modern South African businesses that need speed, security and smart performance. Powered by an Intel Core Ultra 7 processor with AI capabilities, 16GB DDR5 memory and a fast 512GB SSD, it delivers smooth multitasking, quick start-ups and reliable day-to-day productivity. With built-in WiFi 6E, Bluetooth and a pop-up FHD HDR camera, it is ideal for professional video meetings and connected workspaces.

Its sleek all-in-one design saves space while offering extensive connectivity, multiple USB ports, HDMI-in and HDMI-out, DisplayPort and Gigabit Ethernet. Windows 11 Pro adds advanced security and business-ready features to help protect your data and streamline operations. Upgrade your workspace with this intelligent, future-ready desktop PC and buy now to power your team's productivity.

Performance tier:High-performance business AI PC

Uses:Office productivity, video conferencing, remote work, content creation, multitasking, business applications

Overview:

The Dell Pro 24 All in One QC24250 is a space saving 23.8 inch Full HD desktop built for modern business productivity. Designed as an AI ready PC, it combines Intel Core Ultra Series 2 processing power with integrated graphics and advanced collaboration tools in a clean, professional design. With a 65W Intel Core Ultra 7 265U processor, fast DDR5 memory and PCIe SSD storage, this all in one desktop PC is engineered to handle demanding office workloads, AI enhanced applications and seamless multitasking.

Description:

The Dell Pro 24 All in One QC24250 delivers powerful AI accelerated performance in a sleek 23.8 inch Full HD form factor. Equipped with an Intel Core Ultra 7 processor with dedicated NPU, 16GB DDR5 memory and a 512GB PCIe SSD, it ensures smooth multitasking, fast boot times and efficient AI workflows. Built in FHD HDR camera, Wi Fi 6E, Bluetooth and multiple high speed USB and display ports make it ideal for collaboration and multi monitor setups. A height adjustable stand option and integrated speakers and microphones complete a professional, clutter free workspace solution running Windows 11 Pro.

Features:

AI powered performance for smarter work

ComX Computers

Product Specification Sheet

At the heart of this Dell Pro 24 All in One 65W desktop is the Intel Core Ultra 7 265U twelve core processor, built on the latest architecture with a turbo boost up to 5.3GHz and 12MB cache. Its hybrid core design includes performance cores, efficient cores and low power efficient cores, supported by an integrated neural processing unit for AI tasks.

This three tier architecture combining CPU, GPU and NPU enables faster AI driven workloads such as content creation, background effects during video conferencing and intelligent productivity tools. Users working with advanced applications can benefit from improved efficiency and smoother performance across daily tasks.

With 16GB DDR5 non ECC memory and a 512GB M.2 PCIe solid state drive, the system provides fast data access, responsive multitasking and quick startup times. Storage and memory options can be expanded to support growing business requirements.

23.8 inch Full HD display built for productivity

The 23.8 inch Full HD display with 1920x1080 resolution offers crisp visuals and a comfortable viewing experience for long workdays. The non touch panel supports a 100Hz refresh rate and a 1500:1 contrast ratio, delivering smooth motion and vibrant clarity.

The TÜV Rheinland certified low blue light technology helps reduce eye strain, making this all in one desktop suitable for extended screen time in professional environments such as offices, reception areas and meeting rooms.

Professional collaboration with FHD HDR camera and intelligent audio

The built in FHD HDR pop up camera ensures sharp image quality even in challenging lighting conditions. Digital overlap HDR technology blends multiple exposures to maintain accurate color and detail in both bright and dim environments. For privacy, the camera can be physically hidden when not in use.

Integrated digital array microphones and performance speakers with Smart Amplifier provide clear audio. Adaptive Audio adjusts to user proximity, while intelligent noise cancellation enhances clarity during virtual meetings. This makes the Dell Pro 24 All in One an excellent choice for remote teams and hybrid workplaces.

Flexible workspace and multi monitor support

This Dell all in one desktop is designed to adapt to different workstyles. Users can choose between a fixed stand or a height adjustable stand that supports tilt, pivot and 90 degree rotation for improved ergonomics.

For expanded productivity, the system supports multi monitor configurations using HDMI in, HDMI out and DisplayPort++ connections. It can also function as a secondary display for another PC through the HDMI in port, adding versatility to your workspace without extra monitors.

Comprehensive connectivity for business environments

A wide range of ports ensures seamless integration with peripherals, storage devices and displays. Key connectivity options include:

- 1 USB 3.2 Gen 2 Type A port with PowerShare on the side
- 1 USB 3.2 Gen 2 Type C port
- 3 USB 3.2 Gen 2 Type A ports
- 2 USB 3.2 Gen 1 Type A ports with SmartPower On
- 1 USB 3.2 Gen 2x2 Type C port with up to 20 Gbps
- 1 DisplayPort++ 1.4a
- 1 HDMI out 2.1
- 1 HDMI in 1.4
- 1 RJ45 Ethernet port 1 Gbps
- 1 SD card slot

- 1 global headset jack

Wireless connectivity is powered by Intel Wi Fi 6E AX211 with 2x2 support and Bluetooth, ensuring fast and reliable connections in modern office networks.

Enterprise ready security and IT management

Built for commercial use, the Dell Pro 24 All in One focuses on advanced security and simplified management. Hardware and firmware level protections, BIOS level safeguards and validated driver updates help reduce risk from modern cyber threats.

IT teams benefit from a unified BIOS strategy across Dell Pro systems, along with streamlined deployment options and cloud based device management through Microsoft Intune integration. Intel vPro options further enhance remote manageability and multi layer security for enterprise environments.

Windows 11 Pro with AI enhanced productivity

Preloaded with Windows 11 Pro, this all in one PC supports modern security standards and AI driven productivity tools. With Copilot in Windows and enhanced multitasking capabilities, users can streamline workflows, manage tasks efficiently and collaborate more effectively across teams.

Designed with sustainability in mind

The chassis incorporates post consumer recycled plastic and recycled glass, while packaging uses high levels of recycled or renewable content. The system is ENERGY STAR certified and EPEAT Silver registered with Climate+, supporting business sustainability goals.

The Dell Pro 24 All in One QC24250 65W desktop PC brings together AI acceleration, strong security, advanced connectivity and a professional 24 inch display in a single streamlined device, making it an ideal solution for businesses seeking performance, simplicity and long term scalability.
