UniQue universal dvd remote control - a universal remote that replaces lost or damaged DVD player remotes, offering broad compatibility with most DVD players. It supports automatic and code-based setup, providing a cost-effective solution for standard playback controls (play, pause, menu navigation, etc.). No HDMI/CEC or smart-device integration is indicated in available listings

Specifications

About this product

The UniQue RAE-3300 universal dvd remote control is a reliable replacement remote designed to work with a wide range of dvd players, offering automatic and code-based setup for essential playback controls including play, pause, stop, skip and menu navigation, making it a practical and cost-effective accessory for home entertainment systems.

Overview Summary

The UniQue RAE-3300 universal dvd remote control provides seamless compatibility with most standard dvd players, enabling users to regain full control of playback functions without needing the original manufacturer remote. With intuitive button layout and flexible setup options, this remote simplifies user interaction with dvd menus and media playback.

This remote supports both automatic code search and manual code entry to connect with a broad selection of dvd player brands, making it ideal for replacing lost or damaged remotes. Its ergonomic form and familiar button design make operation comfortable and straightforward for daily use.

Performance tier: Essential replacement remote

Uses: dvd player control, playback navigation, menu operation, volume control, basic media commands

Description

The UniQue RAE-3300 universal dvd remote control is engineered to provide dependable operation with most dvds and standard dvd players, bringing back the ability to play, pause, stop, access menu functions and navigate media without the need for the original remote. It features a straightforward button arrangement with tactile feedback to make common commands easy to execute. Users can quickly set up the remote using either automatic setup or manual code entry, ensuring broad compatibility across brands that support infrared remote control functions. Designed with everyday use in mind, the

remote delivers responsive performance for typical home media playback tasks.

Features

The UniQue RAE-3300 universal dvd remote control combines essential functionality with user-friendly design:

- Broad compatibility with most standard dvd players via infrared signal.
- Automatic code search and manual code entry setup options for flexible pairing.
- Ergonomic keypad layout for intuitive access to play, pause, stop, skip and menu buttons.
- Compact and lightweight form factor that fits comfortably in hand.
- Reliable performance for daily dvd control without smart features or network integration.
