Product Overview

Redragon S151 Wired RGB Gaming Keyboard and Mouse Combo - White and Grey, Membrane Gaming Keyboard, 104 Standard Keys + 10 additional Keys, 26-key Anti-Ghosting, RGB Keyboard backlighting, 5 dedicated Multimedia shortcut Keys, 5 dedicated Macro Keys, Wrist Rest, 7 Button Mouse, 10000 dpi Maximum, 1000Hz polling rate, RGB Mouse backlighting, 150 cm cable length

Specifications

Overview Summary:

The Redragon S151 Wired RGB Gaming Keyboard and Mouse Combo delivers responsive control and reliable performance for gamers who need precision and consistency. With a 10,000 DPI gaming mouse and 26-key anti-ghosting keyboard, it supports fast input registration and accurate in-game movement. The clean white and grey design with RGB lighting adds a modern aesthetic suitable for any gaming setup. Shop now to upgrade your gaming experience in South Africa.

Built for both competitive play and everyday use, this combo includes programmable macro keys, dedicated multimedia controls, and a detachable wrist rest for improved comfort during long sessions. The wired connection ensures stable, low-latency input, while the durable ABS construction supports long-term reliability across both keyboard and mouse.

Performance tier:Mid-range gaming peripheral combo

Uses:Competitive gaming, FPS and MOBA gameplay, office productivity, multimedia control, macro-based workflows

Overview:

Unleash responsive gameplay with a 10,000 DPI mouse and 26-key anti-ghosting keyboard, all styled in clean white and grey.

Description:

The Redragon S151 Wired RGB Gaming Keyboard and Mouse Combo delivers a balanced mix of performance, control, and visual appeal for gamers and everyday users. It combines a high precision 10,000 DPI gaming mouse with a responsive membrane keyboard featuring anti-ghosting, macro support, and RGB lighting. Designed in a clean white and grey finish, it enhances any desktop setup while maintaining reliable wired stability and consistent input accuracy during intense gaming or productivity tasks.

Features:

Precision Control for Competitive Gaming

The S151 combo is engineered for fast reactions and accurate input registration, making it suitable for competitive play and multitasking environments. The gaming mouse supports up to 10,000 DPI, allowing precise sensitivity adjustments for different game genres, while the 1000Hz polling rate ensures near instant response times.

Key performance highlights include

ComX Computers

Product Specification Sheet

- Up to 10,000 DPI sensor for adjustable accuracy
- 1000Hz polling rate for low latency response
- 26-key anti-ghosting for reliable multi-key input
- 7-button programmable mouse for enhanced control

These elements work together to ensure smooth command execution even under fast paced gaming conditions.

Design and User Experience

Built with user comfort and visual appeal in mind, the keyboard includes RGB backlighting on both keyboard and mouse for a customizable lighting experience. The detachable wrist rest supports longer sessions by reducing strain during extended use.

The layout includes 104 standard keys plus 10 additional keys, offering a full typing experience with added function flexibility. The white and grey color scheme provides a clean and modern aesthetic suitable for gaming or office environments.

Macros and Shortcut Efficiency

Productivity and in game efficiency are enhanced through dedicated controls. The keyboard includes 5 multimedia shortcut keys for quick access to media functions, while 5 programmable macro keys allow users to assign complex command sequences to a single press.

This makes the system suitable not only for gaming but also for workflow optimization in software navigation, editing tasks, and general computing.

Durability and Connectivity

The Redragon S151 is built for long term reliability using durable ABS construction across both keyboard and mouse. The mouse switches are rated for up to 20 million clicks, supporting extended usage over time.

The wired connection ensures stable performance without wireless interference. A 150 cm cable provides adequate flexibility for most desk setups. This model is identified under SKU RD-S151W.

Compatibility and Everyday Use

While designed for gaming, the S151 also functions effectively as a general purpose keyboard and mouse set. It supports both Windows and Mac systems, making it suitable for office work, study environments, and everyday browsing.

The combination of full key layout, programmable inputs, and responsive mouse control ensures versatility across different use cases.
