

ROLI-SEABOARD BLOCK

Roli Seaboard Block

Product Overview

Roli Seaboard Block

Specifications

Overview:

Create astonishingly expressive music on a portable, super-powered keyboard. Touch and shape your sound on Seaboard Block's soft, pressure-responsive musical surface. Play a powerful standalone instrument - and extend its power by connecting to other Blocks.

Features:

Every movement is musical

Searing solos, cinematic soundscapes, and simple sketches start with one moment of touch. Then the musical possibilities grow. Make music with Five Dimensions of Touch (5D Touch) on a uniquely responsive surface. Expression is at your fingertips, so you can bring any musical idea to life.

Explore hundreds of sounds from strings to synths

Seaboard Block comes with a huge library of sounds from string sections to glitched-out synths. Access your sounds on either mobile or desktop through included software, and add to your collection by purchasing soundpacks from renowned artists like Steve Aoki, RZA, and WondaGurl.

Software to take your tracks from start to finish

Every Seaboard Block comes with a suite of high-powered music production programs. There's something for everyone - from beginners to pros.

Melodics

Jam along to interactive lessons to build your keyboard skills with Melodics, the online educational platform.

NOISE for iOS

Sketch your musical ideas and start building tracks with NOISE, a free app that includes hundreds of sounds. NOISE pairs wirelessly with Seaboard Block, so you can play anywhere you have a connected device. iOS only.

ComX Computers

Product Specification Sheet

Equator Player

Browse 200+ free expressive sounds on a desktop sound player based on Equator, ROLI's flagship soft synth and sound engine.

Strobe2 Player

A desktop sound player version of the acclaimed Strobe2 polysynth from FXpansion. Play 50 expressive presets and explore 3 macro controls.

Cypher2 Player

A desktop sound player version of the premium Cypher2 software synth from FXpansion. Play 50 expressive presets and 3 macro controls.

Tracktion Waveform 8

A cutting-edge Digital Audio Workstation (DAW) that performs seamlessly with the Seaboard's multidimensional expressive surface, Tracktion Waveform 8 helps you visualize and edit your projects with a range of features that are approachable to learners but also powerful for professionals.

ROLI Dashboard

Control Digital Audio Workstations (DAWs) and desktop software programs with ROLI Dashboard. Plug Seaboard Block into your workflow, and use your Seaboard as a controller for Ableton Live, Logic Pro X and many more.

Max MSP

Push the limits of musical creativity with Max MSP, an open-ended environment for plug-in development.

From stage to studio to everywhere in between

Perform with it on stage. Produce with it in your studio. Throw it in your bag and take it to the cafe - it's as lightweight as a magazine. Seaboard Block is an incredibly versatile controller that suits any musical set-up, anywhere.

Expand your instrument

Connect two Seaboard Blocks together through ROLI's magnetic BLOCKS DNA connectors. Or connect Seaboard Block to Lightpad Blocks, Live Blocks, Loop Blocks, or Touch Blocks - the other musical building blocks in the modular BLOCKS system. Seaboard Block is one piece of an instrument that grows with you.

Advanced music technology is more accessible than ever

Seaboard Block is the newest, smallest, most portable Seaboard, an award-winning family of instruments hailed as "the future of the keyboard." Seaboard Block features ROLI's signature SEA interface technology, which integrates sensors and a silicone surface and makes every moment of touch musical.
