

SAMSUNG QA65Q60D

Samsung QA65Q60D 65" QLED Smart TV *TV license*

Product Overview

Samsung QA65Q60D 65" QLED TV; 100% Colour Volume (Quantum Dot); Quantum Processor Lite 4K; Quantum HDR; HDR 10+; Airslim Design *TV license required*

Specifications

Features:

A billion shades of color with Quantum Dot

Quantum Dot technology delivers our finest picture ever. With 100% Color Volume, Quantum Dot technology takes light and turns it into breathtaking colors that stay accurate in various levels of brightness.

Watch your favorite content in 4K

Powerful 4K upscaling ensures you get up to 4K resolution for the content you love.

Upscale your entertainment with Samsung Tizen OS

Get more out of your TV with the latest apps & services on Samsung Tizen OS. Enjoy free live TV channels and thousands of movies with Samsung TV Plus, and seamless cloud gaming with Gaming Hub. You can even manage your daily activities with Daily+ and control your smart devices from your TV with SmartThings.

Sleek and slim, more than ever

The mind-blowing, slim design of your TV blends seamlessly into the wall like you've never seen before.

A smarter, faster 4K processor

Samsung's powerful processor optimizes for viewing and sound conditions. Powerful 4K upscaling ensures you get up to 4K resolution for the content you love.

Wider range of contrast in cinematic scale

Quantum HDR brings out the details and contrast, so you can experience the full power in every image. Going beyond leading standards, the dynamic tone mapping of HDR10+ creates deeper blacks, more vibrant imagery and details that always shine through.

Enjoy authentic color validated by PANTONE

PANTONE validation certifies the accurate expression of 2,030 PANTONE colors and 110 newly added skin tones. So you can

ComX Computers

Product Specification Sheet

enjoy an accurate, true-to-life viewing experience better than ever before.

Enhanced contrast with warm and cool LED backlights

Innovative backlighting technology delivers bolder and more accurate contrast by optimizing the backlight color tone to match the type of content being watched.

Experience improved picture clarity with smooth motions

Experience a clear picture as Motion Xcelerator automatically estimates and predicts the movement between frames to improve the smoothness of your screen's motion.

Optimize your gaming experience

Bigger and wider TV screens with 21:9 and 32:9 ratios give you expansive views and a heightened gaming experience. Optimize your gameplay even more with Game Bar for easy access to various game settings.

Enjoy immersive lighting that syncs with your viewing and gaming experiences

Immerse yourself in dynamically tailored environments created by smart lights that automatically sync with any of your onscreen content.

TV and soundbar orchestrated in perfect harmony

Surround yourself with sound from your TV and Soundbar orchestrated in harmony. Q-Symphony technology allows TV and soundbar speakers to operate simultaneously for a better surround sound effect, without muting the TV speakers.

Immersive virtual sound that tracks the action

3D surround sound with our virtual top channel audio allows you to be immersed in the audio experience.

Adaptive Sound has audio scenic intelligence that optimizes sound based on real-time scene analysis by content type.

Using SmartThings, an icon of the built-in hub on Samsung TV connects to other icons of various connected home devices in a living room, such as the AC, lights, oven, robot vacuum and air purifier. Using SmartThings, an icon of the built-in hub on Samsung TV connects to other icons of various connected home devices in a living room, such as the AC, lights, oven, robot vacuum and air purifier.

Seamlessly connect your smart devices with your TV

With a built-in SmartThings hub in your TV, you can seamlessly connect and control smart devices compatible with Matter and HCA standards, without needing any additional device. You can even get notifications about the status of your smart devices straight from the TV screen.

Your TV as the control center of your home and IoT devices

Better manage your home by intuitively monitoring and controlling your home appliances and IoT devices from a 3D map of your house. Easily view and get notifications on the status of your smart devices on your TV screen.

See it all on one screen

Watch what's on TV and your mobile on the same screen at the same time. Whether it's live stats for sports or cheat videos for games, simply connect your phone and multi-screen like never before. You can also enjoy optimized multi-tasking and watch content simultaneously.

Manage your daily activities and lifestyle more easily through Samsung Tizen OS

Through Samsung Tizen OS's open app ecosystem, Daily+ enables you to easily manage your daily activities and lifestyle from the comfort of your TV. Daily+ includes apps and services like SmartThings and Workspace.

Do the SmartThings!

Optimize your home devices into a smart lifestyle tailored to your needs. Enhanced with our built-in SmartThings hub, you can

enjoy a customized smart home with various SmartThings-compatible devices that simplify your day-to-day.

Height that fits your space

Get an optimal viewing experience by easily adjusting the height of your TV stand as desired. It is also just the right stand to fit your Soundbar.

Your privacy. Secured.

Your privacy is now secured on Samsung TVs. Your sensitive data such as pin codes or passwords are protected by multiple layers of software and hardware. Also, Samsung Knox Security secures the home IoT devices connected to your TV and automatically blocks execution of unauthorized malicious apps or access to phishing sites. Lastly, Samsung's dedicated security team helps keep your TV safe with regular updates.

Saves energy with intelligent analysis

Energy saving is made easy with SmartThings. By turning on AI Energy Mode, your TV auto-detects surrounding light levels and analyzes usage behaviors to adjust the brightness, which helps in reducing overall energy consumption. It also analyzes TV content scene-by-scene to subtly adjust brightness where possible, to cut down on energy consumption.

A remote control made with recycled materials and charged by sunlight and indoor lighting

With a solar panel on its back that you can use for charging, you no longer need to use disposable batteries for SolarCell Remote, as they are not the best for the environment.
