J5-Creat JVAW65 ScreenCast Mini - HDMI FHD Wireless Display Adapter

Product Overview

J5-Creat JVAW65 ScreenCast Mini - HDMI FHD Wireless Display Adapter; Full HD wireless display adapter; 1920 x 1080 at 60Hz; AirPlay; Miracast; 2.4GHz and 5GHz wireless; HDMI male; USB Type-A power; Windows, macOS, Android, iOS and iPadOS compatibility; up to 30m stated range; USB extension cable included

Specifications

About this product

The J5Create JVAW65 ScreenCast Mini is a compact Full HD wireless display adapter that lets you cast content from compatible smartphones, tablets and computers to an HDMI-enabled TV or display. Supporting AirPlay and Miracast, it delivers wireless screen sharing at up to 1920 x 1080 resolution and 60Hz, making it suitable for presentations, streaming and sharing photos or videos on a larger screen. With plug-and-play setup, dual-band wireless connectivity and USB Type-A power, this adapter offers a convenient way to enjoy wireless display casting at home or in the office. Buy the J5Create JVAW65 ScreenCast Mini online for convenient wireless screen sharing in South Africa.

Overview Summary

J5Create JVAW65 ScreenCast Mini Full HD Wireless Display Adapter

The J5Create JVAW65 ScreenCast Mini is designed to make wireless screen sharing simple and convenient. It enables compatible mobile devices and computers to cast content to an HDMI-enabled television or external display, reducing the need for a direct video cable between the source device and screen.

With support for AirPlay and Miracast, Full HD output up to 1920 x 1080 at 60Hz, and 2.4GHz and 5GHz wireless connectivity, the adapter is suitable for home entertainment, presentations, demonstrations and sharing content with a group. Its plug-and-play design and USB Type-A power connection help simplify installation.

Performance tier: Full HD wireless display adapter

Uses: Wireless screen mirroring, home entertainment, office presentations, photo and video sharing, compatible mobile device casting, classroom demonstrations

Overview

Project your world onto the big screen with the ScreenCast Wireless Display Adapter. This compact HDMI(TM) transmitter makes it simple to wirelessly share content from your phone, tablet, or laptop.

With support for Miracast(TM) and AirPlay(RegTM), the ScreenCast is compatible with your existing Windows(RegTM), macOS(RegTM), iOS(RegTM), iPadOS(RegTM), and Android(TM) operating systems. From home to the office, the ScreenCast works seamlessly with a wide array of apps. Connect and share instantly!

Description

The J5Create JVAW65 ScreenCast Mini HDMI Full HD Wireless Display Adapter provides a convenient way to share content from compatible mobile devices and computers on a larger screen. Designed for use with an HDMI-enabled television or external display, it supports wireless casting through AirPlay and Miracast, helping you present compatible content without requiring a direct video cable from your source device.

Full HD wireless casting

Enjoy supported video output at up to 1920 x 1080 resolution at 60Hz. This makes the ScreenCast Mini suitable for viewing compatible videos, displaying photographs, sharing documents and delivering presentations on a Full HD screen. Its low-latency casting design helps provide a responsive viewing experience for supported applications and devices.

Broad device compatibility

The JVAW65 supports compatible devices running Windows, macOS, Android, iOS and iPadOS. AirPlay and Miracast support allows users to mirror or share content from supported devices, subject to the operating system and device capabilities.

Convenient wireless connectivity

ComX Computers

Product Specification Sheet

Dual-band wireless connectivity supports 2.4GHz and 5GHz operation. The adapter uses HDMI for display output and USB Type-A for power, with an included USB extension cable to assist with connection and positioning. Its compact design makes it suitable for home, office and educational environments where wireless screen sharing is useful.

Flexible applications

Use the ScreenCast Mini to share compatible media on a television, display a presentation in a meeting room, show photographs to family and friends, or mirror supported mobile applications on a larger screen. Portrait mode support is useful for compatible vertical content, including short-form video applications.

For the best results, confirm that your source device supports AirPlay or Miracast and that your television or external display has an available HDMI input. Some protected streaming content and applications may have their own casting restrictions.

Features

The J5Create JVAW65 combines Full HD wireless casting with convenient connectivity for compatible mobile devices and computers.

- Full HD output: Supports video output up to 1920 x 1080 at 60Hz for compatible displays.
- Wireless screen sharing: Cast compatible content from supported smartphones, tablets and computers to an external display.
- AirPlay support: Enables casting from compatible Apple devices.
- Miracast support: Allows wireless display mirroring from compatible devices.
- Dual-band wireless: Supports 2.4GHz and 5GHz wireless connectivity.
- Plug-and-play setup: Designed for straightforward installation without a dedicated casting app or an existing Wi-Fi network, according to the manufacturer's product information.
- HDMI connectivity: Connects to an HDMI-enabled television or external display.
- USB Type-A power: Uses a USB Type-A connection for power.
- Portrait mode: Supports compatible vertical content and applications.
- DRM and HDCP support: Supports protected content under the manufacturer's stated conditions when casting through the HDMI transmitter. Playback may still depend on the streaming service, application and source device.
- Compact design: Suitable for home entertainment, meeting rooms, classrooms and other screen-sharing environments.
- USB extension cable included: Helps provide additional flexibility when connecting the adapter.

Stream Wirelessly with Ease in Stunning 1080P HD

Wirelessly share content from your HDMI(TM) device to your HDTV with plug-and-play ease, enjoying 1080p@60Hz low-latency casting.

Supports AirPlay(RegTM)/Miracast(RegTM) for Mobile Devices

Offering universal compatibility with your non-HDMI(TM) mobile devices via AirPlay(RegTM)/Miracast(RegTM), this is the most complete and hassle-free wireless display system on the market

Long Range Transmission

Wireless transmission enables seamless device connectivity, freeing you from a single location and simplifying tasks such as live streaming, presenting, or working across large areas.

Connect One Device to All Your Streaming Services

With the support of DRM technology and HDCP compliance, you can enjoy countless entertainment options on your favorite streaming applications. (DRM/HDCP compliance is only available for casting with the HDMI(TM) transmitter)

Supports Portrait Mode

Perfect for vertical apps and live streaming, including TikTok(RegTM) and Facebook(RegTM) Reels.

One-Press Disconnect or Reconnect

Maximum privacy and security are guaranteed.

ComX Computers

Product Specification Sheet

5G + 2.4G Dual Band Smooth Streaming

Enjoy stable, low-latency performance.

System Requirements

- Windows(RegTM) 10 or later
- Android(TM) 8.0 or later
- macOS(RegTM) 10.15 or later (with AirPlay(RegTM) support)
- iOS(RegTM) 10.0 or later iPadOS(RegTM) 13 or later

What's in the Box

- 1 x J5Create JVAW65 ScreenCast Mini HDMI Full HD Wireless Display Adapter
- 1 x USB Type-A extension cable, approximately 60 cm
- 1 x Quick Installation Guide

Specifications	
Product Code	SC-JVAW65
Hardware	
Host connector	HDMI Male (Transmitter / Receiver)
Power source	USB Type-A male (Transmitter / Receiver)
Performance	
Audio channel	2.1 via HDMI
HDMI compliance	HDMI v1.3
Security - encryption	WPA2
Supported resolution - output	1920 x 1080, 1280 x 720, 720 x 480
Physical Specifications	
Cable length	Transmitter (TX): 23.6 in. (600 mm); Receiver (RX): 23.6 in. (600 mm)
Colour	White / Orange
Enclosure type	Plastic
Operating humidity	Less than 85% non-condensing
Operating temperature	14 to 104 F (-10 to 40 C)
Product depth	JVAW65 Transmitter (TX): 0.41 in. (10.5 mm); JVAW57 Receiver (RX): 0.47 in. (12 mm)
Product height	JVAW65 Transmitter (TX): 1.3 in. (33 mm); JVAW57 Receiver (RX): 1.7 in. (44 mm)
Product weight	JVAW65 Transmitter (TX): 0.95 oz (27 g); JVAW57 Receiver (RX): 1.09 oz (31 g); Extension Cable: 0.99 oz (28 g)
Product width	JVAW65 Transmitter (TX): 0.78 in. (20 mm); JVAW57 Receiver (RX): 0.98 in. (25 mm)
Storage humidity	Less than 85% non-condensing

Storage temperature	-4 to 122 F (-20 to 50 C)
Wireless Protocols	
Antenna type	Internal antenna
Channel width	20 MHz, 40 MHz
Frequency	2.4 GHz on JVAW57; 5 GHz on JVAW57 and JVAW60
Range	Up to 30 metres
Standard	IEEE 802.11n

FAQ

What is the J5Create JVAW65 ScreenCast Mini used for"

The JVAW65 is used to wirelessly cast compatible content from a smartphone, tablet or computer to an HDMI-enabled television or external display. Common applications include presentations, photo sharing and supported video playback.

Does the J5Create JVAW65 support Full HD 1080p"

Yes. The adapter supports video output up to 1920 x 1080 at 60Hz when used with compatible source devices and displays.

Which devices are compatible with the JVAW65"

The adapter supports compatible Windows, macOS, Android, iOS and iPadOS devices. Compatibility depends on the operating system version and whether the device supports AirPlay or Miracast as required.

Does the J5Create JVAW65 support AirPlay and Miracast"

Yes. It supports AirPlay and Miracast for wireless screen sharing from compatible Apple, Android and Windows devices.

Does the JVAW65 need a Wi-Fi network"

The manufacturer's product information describes plug-and-play operation without an existing Wi-Fi network or a dedicated casting app. Follow the supplied installation guide for the correct setup procedure.

How does the JVAW65 connect to a television"

The adapter connects to an HDMI input on a compatible television or external display. USB Type-A provides power to the adapter, so a suitable USB power connection is also required.

What is the wireless range of the J5Create JVAW65"

The manufacturer lists a wireless range of up to 30 metres. Actual performance depends on the environment, obstacles, wireless interference and connected devices.

Can the JVAW65 display vertical videos"

Yes. The adapter supports portrait mode for compatible vertical content and applications. The displayed format also depends on the source device and application.

Can the JVAW65 play protected streaming content"

The adapter supports DRM and HDCP under the manufacturer's stated conditions. Individual streaming services and applications may impose additional restrictions on screen mirroring or playback.

What is included with the J5Create JVAW65"

The package includes the JVAW65 ScreenCast Mini wireless display adapter, a USB Type-A extension cable and a Quick Installation Guide.

Does the JVAW65 support 4K output"

No 4K output is listed in the manufacturer's specifications for this model. Its maximum stated output resolution is 1920 x 1080 at 60Hz.
