FAQ

What are the transfer speeds for this SanDisk Ultra Shift USB drive?
The drive features a USB 3.2 Gen 1 interface with read speeds up to 100MB/s, allowing you to move files quickly and efficiently without slowing down your workflow.

Does this flash drive require any special setup or drivers?
No, the drive is plug-and-play compatible with Windows 10+ and macOS 12+, so you can start transferring files immediately after plugging it into a USB Type-A device.

How do I protect my private files on this drive?
You can help protect personal or sensitive content by using password protection through the downloadable SANDISK app, ensuring your data stays secure when sharing or storing the drive.

What software tools come with this USB flash drive?
The product includes data recovery software to recover accidentally deleted files and a desktop app for managing and backing up your content on Windows or macOS computers. (Note: The mobile app is not compatible with this USB Type-A drive.)

Is the SanDisk Ultra Shift designed to be easily portable?
Yes, its compact cap-less design fits easily into pockets, bags, or keychains and features a convenient lanyard slot for keeping it close at hand while on the move.
