Buy now to integrate a high-performance IP phone that keeps your team productive and connected.

Performance tier:Premium

Uses:Office communication, video conferencing, business calls, SIP account management, enterprise collaboration

Overview:

Yealink T58W / T58W Pro Desktop IP Phone

The Yealink T58W Pro is a premium business desktop IP phone designed for modern work environments. With a sleek 7-inch adjustable capacitive touch screen, built-in Bluetooth and Wi-Fi, and advanced noise-cancellation technology, it provides a seamless communication experience. Ideal for professionals who need mobility, clarity, and robust system performance, the T58W Series combines high-quality audio, enterprise-level security, and flexible connectivity for an enhanced desktop

collaboration solution.

Description:

The T58W Pro supports up to 16 SIP accounts, dual Gigabit Ethernet ports, PoE support, and two USB 2.0 ports for headsets or media. Powered by Android 9.0, it offers fast processing, secure data handling, and easy integration with Yealink or Unify Square management platforms. Its high-definition 720p video and Yealink Noise Proof technology ensure clear calls, while wireless freedom allows users to stay productive without being tethered to their desk.

Features:

Elite Collaboration for Modern Workspaces

With its Bluetooth-enabled handset and high-definition camera, the T58W Pro allows users to move freely while maintaining professional communication standards. This flexibility enhances productivity and supports a dynamic office environment.

Clear Audio, Noise-Free Calls

Yealink's advanced acoustic algorithms and hardware ensure conversations remain crisp and focused. Full-duplex hands-free speakerphone with echo cancellation guarantees optimal audio performance for conference calls and daily business communications.

Fast, Reliable Performance

Powered by upgraded chipsets and Android 9.0 OS, the T58W Series delivers smooth performance, quick response times, and enhanced processing power. Its system supports secure data encryption, authority management, and seamless integration, catering to modern business needs and future scalability.

Enterprise-Grade Security and Simplified Management

The T58W Pro prioritizes data protection with a hardened Android OS offering secure boot, sandboxing, process isolation, encryption, and anti-exploitation measures. Integration with Yealink or Unify Square Device Management Platforms simplifies provisioning, management, and software updates, reducing administrative overhead.
