Product Overview

Yealink SmartVision 40 All-in-One AI USB Video Bar for Small to Medium Rooms, 2x 48MP camera 4K 60fps, Built-In 8 MEMS Microphone Array, 6-meter voice pickup range, 2x 10W Stereo Speakers, Full-Duplex Technology, 1x USB 3.0 Type-B Port, 1x USB 2.0 Type-A Port, 1x USB-C Port, 1x Yealink VCH Port (RJ-45), 1x 3.5mm Line-In & Line-Out Port, 1x Power Port, 1x Security lock slot, 1x Reset slot, 1x HDMI out, Built-In Wi-Fi

Specifications

Overview:

SMARTVISION 40 - THE INTELLIGENT ALL-IN-ONE CONFERENCING CAMERA FOR SMALL TO MEDIUM ROOMS

Yealink SmartVision 40 is an ultra-high-definition intelligent all-in-one conference system designed for small to medium meeting rooms. It integrates leading intelligent AI algorithms to enhance meeting efficiency.

It will combine the images from two 48MP lenses, present a higher pixel picture, and deliver clearer image quality. It also features built-in stereo speakers, 8 long-range pickup microphones, and supports 2 additional expansion microphones*. The intelligent noise reduction technology provides a good audio experience.

Furthermore, it is equipped with intelligent AI technologies such as face detection, sound source positioning, and voice tracking. It intelligently tracks the movements of conference participants, ensuring that the focus is always on the speaker,

Product Specification Sheet

providing clear and stable images.

In addition to the basic automatic framing and speaker tracking functions, it introduces the Multi-stream IntelliFrame feature* . Through multi-stream output, it can detect speakers in the meeting room and automatically frame and display them on the screen. This enables remote participants to see the facial expressions and postures of each speaker clearly, creating a more intuitive and interactive remote meeting experience.

Moreover, its deployment and installation are also straightforward. With its integrated design, you simply need to place it in the appropriate position in the meeting room, and connect it to power and the network, without the need for complicated wiring and setup steps. To protect the privacy and security of meetings, the Yealink SmartVision 40 is designed with an automatic lens privacy cover, providing users with a secure and intelligent conference experience.

*Support 2x expansion microphones: Optional

Features:

- Ultra HD picture quality
- Artificial AI features
- High-quality audio pickup experience
- Remote device management
- Simple deployment
- Privacy protection
- Wireless BYOD

Ultra HD picture quality

The dual lens fixed-focus stitching solution combines the images from two lenses to achieve a higher pixel density, resulting in clearer and sharper image quality. This is beneficial for detailed observation during meetings, document presentations, and the viewing experience of remote participants.

Artificial AI Features

The intelligent AI features not only include basic automatic framing and speaker tracking functions but also include the IntelliFocus feature. It can automatically detect speakers in the meeting room, frame them, and display them on the screen through multi-stream output, providing a more intuitive and interactive remote meeting experience. Additionally, the Video Fence feature can intelligently identify and block interfering factors in the meeting room, maintaining a clean and professional meeting display.

High-quality audio pickup experience

SmartVision 40 has a 6-meter voice pickup range, 4-meter quality voice pickup range and built-in stereo speakers, 3-meter full-duplex technology, and 8x long-range pickup microphones. The intelligent noise reduction technology provides a good audio experience. In addition, it can support 2 additional expansion microphones, that can cover a large conference room.

Remote Device Management

SmartVision 40 is networked and reported to the device management platform, then can be remotely managed, configured, and upgraded.

Simple deployment

All-in-one audio and video device, comes with a standard 2.5-meter USB cable, includes a standard wall mount bracket, and optional TV wall mount is available.

Privacy Protection

SmartVision 40 is designed with an automatic lens privacy cover, providing users with a secure and intelligent conference experience.

Specifications:

Product Code	SMARTVISION 40
Camera	2 x 48MP
	DFOV 120degrees
	4k60fps
	6x Digital zoom
	Automatic lens privacy cover
	Camera preset of maximum 9 preselections
Audio	Built-in 8 MEMS microphone array
	6-meter voice pickup range
	4-meter quality voice pickup range
	2x 10W Stereo speakers
	Support 2x expansion microphone
	Intelligent noise cancellation technology
	Full-duplex technology
	Echo cancellation technology
	Frequency Response: 100-20kHz
AI Feature	IntelliFocus
	Multi-Stream IntelliFrame (Only for Microsoft Teams Room)
	Video Fence
	Auto Framing
	Speaker Tracking
	Image Super Resolution Technology
	Multi-Focus
	Picture-in-Picture
Connections	1x USB3.0 Type-B port
	1x USB2.0 Type-A port
	1x USB-C port
	1x Yealink VCH port (RJ-45)
	1x 3.5mm Line-in & Line-out port
	1x Power port
	1x Security lock slot
	1x Reset slot
	1x HDMI-out
	Built-in Wi-Fi
