About this product

The Silicon Power SP256GBUF3M02V1B Marvel M02 256GB USB 3.2 Gen 1 Flash Drive delivers fast, reliable portable storage with a durable aluminium casing and high-speed USB-A connectivity. Buy now for secure plug-and-play data transfer, easy file backup, and everyday portability for laptops, desktops, and compatible devices in South Africa from this online store.

Overview Summary

Silicon Power Marvel M02 256GB USB Flash Driveis a compact and durable storage solution designed for fast data transfer and everyday portability. It uses a USB 3.2 Gen 1 interface for improved read and write performance compared to older USB standards, making it ideal for moving large files quickly and efficiently.

The drive features a lightweight aluminium body with a protective cap design, helping safeguard the USB connector during transport. Its built-in strap hole allows easy attachment to keys or bags, making it highly portable for students, professionals, and mobile users.

With broad compatibility across Windows, Mac, and Linux systems, this flash drive is suitable for backup storage, media transfer, and file sharing across multiple platforms without the need for additional software installation.

Performance tier: Mid range portable storage

Uses: File backup, document storage, media transfer, bootable drives, portable software storage

Description

The Silicon Power Marvel M02 256GB USB 3.2 Gen 1 Flash Drive is engineered for users who need dependable and portable storage with efficient transfer speeds. Its USB 3.2 Gen 1 interface ensures faster data movement compared to standard USB 2.0 drives, making it suitable for handling large documents, photos, videos, and application files.

The aluminium casing provides a solid and lightweight structure that improves durability during daily use. A protective cap shields the USB connector from dust and damage when not in use, extending the lifespan of the device. The integrated strap hole adds convenience for on-the-go users who want secure attachment to keyrings or bags.

This flash drive is ideal for students, office professionals, and general users who require portable storage for backups, file sharing, and system transfers across multiple devices and operating systems.

Features

The Silicon Power Marvel M02 offers a combination of speed, portability, and durability for everyday storage needs.

- 256GB storage capacity for large file storage and backups
- USB 3.2 Gen 1 interface for faster data transfer performance

- Plug and play functionality with no setup required
- Compatible with Windows, Mac, and Linux operating systems

What's in the Box

- 1 x Silicon Power 256GB Marvel M02 USB 3.2 Gen 1 Flash Drive
- Protective USB cap (attached)

Specifications

- Brand: Silicon Power
- Model: SP256GBUF3M02V1B
- Capacity: 256GB
- Interface: USB 3.2 Gen 1 (USB 3.0 compatible)
- Connector type: USB-A
- Material: Aluminium and plastic
- Dimensions: 60.6 x 19.3 x 9.9 mm
- Weight: 9.5 g
- Operating system support: Windows, Mac OS, Linux
- Operating temperature: 0 to 70 degrees Celsius

FAQ

Is the Silicon Power Marvel M02 compatible with laptops and desktops?

Yes, the USB-A interface makes it compatible with most laptops and desktop computers that support USB ports, including Windows, Mac, and Linux systems.

Does this USB drive require software to use?

No, it supports plug and play functionality, meaning it works immediately when inserted into a compatible USB port.

Is the drive suitable for large file transfers?

Yes, the 256GB capacity and USB 3.2 Gen 1 interface make it suitable for transferring large files such as videos, backups, and software.

Can it be used for backup storage?

Yes, it is commonly used for file backups, system recovery drives, and portable document storage.

Is the casing durable?

The aluminium casing provides improved durability and protection against daily wear and tear.
