SteelSeries Arctis NOVA 7X Gen 2 Magenta Gaming Headset

Product Overview

SteelSeries Arctis NOVA 7X Gen 2 Magenta Gaming Headset, Features Neodymium Magnetic drivers with 360 degrees spatial Audio support, Includes 40 mm Speaker drivers for detailed soundscapes, Delivers up to 54 hours Battery Life on 2.4GHz Wireless, Provides 15 minutes USB-C Fast Charge for 6 hours playtime, Supports simultaneous 2.4GHz Gaming and Bluetooth V5.0 Audio mixing, Includes ClearCast Gen 2 retractable Boom Microphone, Features bidirectional Noise Cancelling Microphone pattern, Offers ChatMix Dial for Independent Game and Chat Volume control, Included USB Type-A to USB-C charging cable

Specifications

Overview Summary:

Upgrade your gaming setup with the SteelSeries Arctis Nova 7X Gen 2 Magenta, a premium wireless headset engineered for South African gamers who demand zero compromise. This next-generation audio solution delivers over 50 hours of battery life and seamless connectivity across Xbox, PC, PlayStation, Switch, and mobile devices through its unique simultaneous Bluetooth and 2.4GHz wireless technology. Experience crystal-clear sound with 360-degree spatial audio, pinpoint enemy locations instantly, and manage your game and chat volumes independently using the companion app or onboard dials.

Designed for comfort during extended play sessions, this headset features a lightweight build and high-fidelity neodymium drivers that bring every detail of your soundscape to life. Whether you are dominating ranked matches on Xbox or streaming on PC, the advanced noise-rejecting microphone ensures your team hears you clearly while blocking out background distractions. Take advantage of the rapid USB-C charging capability to get back in the game quickly after just 15 minutes of power.

Don't settle for average audio performance; secure your SteelSeries Arctis Nova 7X Gen 2 Magenta today and experience the next level of wireless gaming freedom. Buy now to start dominating your matches with superior sound quality and versatile connectivity.

Performance tier:High-End

Uses:Competitive Gaming, Streaming, Music Listening, Mobile Gaming, Voice Chat

Overview:

The SteelSeries Arctis Nova 7X Gen 2 Magenta is the ultimate wireless gaming headset designed for players who demand uncompromising audio quality and versatility. Building on the legacy of an award-winning design, this next-generation model delivers real-time game audio control across multiple devices simultaneously. Whether you are dominating on Xbox, PC, PlayStation, or Switch, the headset ensures a seamless experience with premium build quality, extended battery life exceeding 50 hours, and intuitive mobile app integration. It is engineered for those who refuse to settle, bringing superior soundscapes and crystal-clear communication to your gaming sessions.

Description:

The SteelSeries Arctis Nova 7X Gen 2 Magenta combines high-fidelity audio with dual wireless connectivity, allowing you to game via USB-C dongle while listening to mobile audio or taking calls over Bluetooth. Powered by neodymium magnetic

drivers and featuring 360-degree spatial audio, this headset offers deep bass and precise positional cues essential for competitive play. The dedicated ChatMix dial lets you balance game chat and music instantly, while the retractable ClearCast Gen 2 microphone ensures your voice is heard clearly with advanced noise rejection.

Features:

Immersive Audio Experience

Hear every footstep and environmental cue with precision using the custom-designed neodymium magnetic drivers. These 40 mm components deliver a rich, detailed soundscape that supports full 360-degree spatial audio, giving you a distinct advantage in competitive titles. The headset features an expansive frequency response ranging from 20 Hz to 22,000 Hz with low total harmonic distortion below 3%, ensuring pure sound reproduction without unwanted artifacts. You can also customize the audio profile using over 200 professional EQ presets or create your own tailored settings through the companion app.

Dual Wireless Connectivity

This headset supports simultaneous connection to two devices, allowing you to mix game audio from your console or PC with music and calls from your smartphone. The 2.4GHz wireless connection via the included USB-C dongle provides a low-latency gaming experience, while Bluetooth V5.0 handles mobile audio independently. You can control each channel separately using unique EQ profiles for games and mobile content, ensuring you get the best sound for every source without interruption.

Communication and Microphone

The retractable ClearCast Gen 2 microphone features bidirectional noise cancellation to minimize background chatter, keyboard clicks, and fan noise. When extended close to your mouth, it delivers clear voice transmission with a frequency response optimized for wireless clarity. The Sonar AI software on PC further enhances audio quality by allowing individual application control and advanced mic EQ settings. Note that while the microphone functions when retracted, optimal sound quality requires it to be fully extended.

All-Day Battery Life

Designed for marathon gaming sessions, the headset offers over 50 hours of playtime on a single charge depending on usage mode. You can achieve up to 54 hours using the 2.4GHz wireless connection alone or sustain 38 hours while running both wireless and Bluetooth simultaneously. If you need a quick boost, a 15-minute fast charge via USB-C provides approximately six hours of additional playtime, getting you back into action immediately.

Universal Compatibility

The Arctis Nova 7X Gen 2 works seamlessly across a wide range of platforms including Xbox Series X|S, PC, PlayStation, Nintendo Switch, Android devices, and Meta Quest headsets. The included compact USB-C dongle connects to any standard USB port on the console or computer, with a USB-A adapter provided for legacy ports. While the ChatMix dial functions natively on consoles, PC users can access full software integration via the SteelSeries GG suite.

Key Specifications

- Part Number: 61760
- Driver Type: Neodymium Magnetic Drivers (40 mm)
- Frequency Response: 20-22,000 Hz
- Sensitivity: 105 dB SPL @ 1kHz/1mW
- Impedance: 36 Ohms
- Total Harmonic Distortion: Less than 3%
- Battery Life: Up to 54 hours (2.4GHz) / 42 hours (Bluetooth)
- Fast Charge: 15 mins for 6 hours playtime
- Microphone Type: ClearCast Gen 2 Retractable Boom
- Wireless Standard: 2.4GHz Gaming Wireless + Bluetooth V5.0
- Weight: 325g / 0.72lbs

FAQ

Can I listen to game audio and Bluetooth audio simultaneously?

Yes, the headset supports simultaneous 2.4GHz gaming wireless and Bluetooth connections, allowing you to mix game audio with music or calls from your mobile device.

How do I connect this headset to an Xbox console?

The headset connects wirelessly via a USB-C dongle that plugs into any USB port on the Xbox. The same dongle can also be used on PC, PlayStation, Switch, and handhelds with the included USB-A adapter.

Does the ChatMix dial work for adjusting game and chat volume on all platforms?

The physical ChatMix dial works immediately on Xbox consoles. For PC users, you must install the SteelSeries Sonar Software to access this feature through GG.

How long does the battery last and how fast can I charge it?

You get up to 50+ hours of playtime on a single charge. A quick 15-minute USB-C charge provides approximately 6 hours of additional gameplay.

Can I use the microphone while answering mobile calls over Bluetooth?

No, when you start a call via Bluetooth, the headset automatically switches the microphone to the call and mutes it for game chat. The retractable mic also requires extension near your mouth for optimal sound quality.
