SteelSeries Apex Pro TKL Wireless Gaming Keyboard US

Product Overview

SteelSeries Apex Pro TKL Wireless Gaming Keyboard US, Tenkeyless eSports Keyboard Design, Omnipoint 2.0 adjustable HyperMagnetic Switches using hall effect Magnetic sensors, Dual Wireless connectivity supporting 2.4GHz and Bluetooth 5.0 connections simultaneously, OLED Smart Display Integrated Command center for Profile and setting adjustments, 37.5 hours Battery Life in Wireless mode with Default Lighting settings, Aircraft grade Series 5000 Aluminum Alloy top plate construction, Double shot PBT KeyCaps engineered for fade-proof durability, Per-Key RGB illumination controlled via SteelSeries Engine Software, On-Board Memory stores up to 5 custom profiles locally on the Keyboard, Detachable USB Type-C Braided cable included with Wireless Dongle, Rubber Tri Level feet provide three Ergonomic height adjustment options.

Specifications

Overview Summary:

Upgrade your gameplay with the SteelSeries Apex Pro TKL Wireless, the ultimate esports keyboard engineered for speed and precision in South Africa. Featuring revolutionary OmniPoint 2.0 adjustable hypermagnetic switches, this tenkeyless keyboard allows you to customize actuation depth from 0.1 mm for lightning-fast triggers up to 4.0 mm for deliberate presses. The integrated OLED smart display provides instant access to settings while Quantum 2.0 technology ensures lag-free performance via both 2.4 GHz wireless and Bluetooth 5.0 connections.

Built with an aircraft-grade aluminum alloy frame and durable PBT keycaps, this keyboard is designed for intense gaming sessions without compromising on comfort or reliability. The compact TKL design saves valuable desk space for large mouse movements, giving you the competitive edge you need to dominate your matches in any title. Experience zero-latency response times and programmable profiles that adapt to your specific playstyle instantly.

Secure your competitive advantage today by buying this high-performance gaming peripheral now. Enhance your setup with per-key RGB illumination and take full control of your gameplay with the SteelSeries Engine software included for Windows and Mac users.

Performance tier:High-end Esports

Uses:Competitive FPS gaming, MOBA strategy games, streaming setups, professional tournament play, rapid typing tasks, custom macro programming, dual wireless connectivity usage

Overview:

The world's fastest keyboard has evolved again with the SteelSeries Apex Pro TKL Wireless (Part Number 64865). This tenkeyless esports keyboard is designed for players who demand absolute precision and speed, featuring the revolutionary Omnipoint 2.0 Adjustable HyperMagnetic Switches. By utilizing state-of-the-art magnetic sensors, these switches eliminate physical contact for instant activation, delivering a response time of just 0.7 ms that outperforms conventional mechanical keyboards significantly. The design prioritizes ergonomics and performance, offering an adjustable actuation range from 0.1 mm to 4.0 mm so you can customize the feel of every keystroke to suit your specific playstyle.

Description:

The Apex Pro TKL Wireless combines military-grade durability with cutting-edge wireless technology for a gaming experience that knows no limits. This keyboard features an aircraft grade aluminum alloy top plate that ensures structural rigidity while

maintaining a sleek, professional aesthetic suitable for any setup. With the Quantum 2.0 Dual Wireless system, you can switch seamlessly between lag-free 2.4 GHz gaming or Bluetooth 5.0 connectivity without sacrificing battery life. The integrated OLED Smart Display serves as an on-board command center, allowing you to adjust settings and view updates instantly, while the durable double-shot PBT keycaps resist fading and wear over years of intense use.

Performance is at the core of this device through its Rapid Trigger technology, which eradicates latency by dynamically activating keys based on travel distance rather than a fixed point. This innovation allows for faster recovery times and more accurate inputs during critical moments in competitive play. The unique 2-in-1 Action Keys capability lets you program two distinct actions to a single key depending on the depth of your press, enabling complex combos like sprinting after a light tap or executing advanced maneuvers with ease. All customizations can be managed through the intuitive SteelSeries Engine software, which supports per-key RGB illumination and up to five onboard profiles for instant switching.

Features:

Key Features:

- Omnipoint 2.0 Adjustable HyperMagnetic Switches with zero contact activation
- Rapid Trigger technology for dynamic key response based on travel distance
- Quantum 2.0 Dual Wireless supporting both 2.4 GHz and Bluetooth 5.0 connections
- OLED Smart Display integrated command center for real-time settings adjustments
- Aircraft grade Series 5000 aluminum alloy top plate for enhanced rigidity
- Durable double-shot PBT keycaps designed to resist fading and wear
- Detachable USB Type-C braided cable for portability and durability
- Height-adjustable tilt legs with three ergonomic extension options

The physical build of the Apex Pro TKL Wireless is engineered to provide stability during intense gaming sessions. The keyboard measures 355 mm in width and 128 mm in depth, fitting comfortably on most desks while leaving ample room for large mouse movements. Weighing approximately 1070 grams, it feels substantial yet portable thanks to its robust construction. The included rubber tri-level feet allow you to fine-tune the angle of the keyboard for maximum comfort during long play sessions.

Battery life is optimized to keep you playing longer without interruption, offering up to 37.5 hours in wireless mode and 45 hours via Bluetooth with default lighting settings enabled. The internal processor handles these connections efficiently while storing your custom profiles locally on the device. This ensures that your preferred settings are always available regardless of which computer you connect to, whether it is running Windows or Mac OS X.

Technical Specifications:

- Key Switch Type: OmniPoint 2.0 Adjustable HyperMagnetic Switches with Analog Hall Effect Magnetic Sensor
- Switch Rating: Up to 100 million keystrokes
- On-Board Memory: Stores up to 5 custom profiles locally
- Processor: High-speed 32 bit ARM processor
- Actuation Range: Fully adjustable from 0.1 mm to 4.0 mm in 0.1 mm increments
- Response Time: Industry-leading 0.7 ms latency
- Connection Options: Wired USB, 2.4 GHz Wireless, or Bluetooth 5.0
- Battery Life: 37.5 hours (Wireless) / 45 hours (Bluetooth) with default lighting

Design Specifications

- Dimensions: 355 mm width x 128 mm depth x 42 mm height
- Total Weight: 1070 grams or 2.4 lbs
- Tilt Adjustment: Rubber Tri Level Feet for three angle options
- Illumination: Full per-key RGB lighting with customizable effects

Compatibility and Requirements

This keyboard is compatible with Windows, Xbox, PlayStation, and Mac OS X systems. A USB port is required to connect the device or charge the battery. For full customization capabilities including RGB control and profile management, users should install the SteelSeries Engine software which supports Windows 8.1 and newer as well as Mac OS X 10.13 and newer on compatible operating systems.

What's in the box

- Apex Pro TKL Wireless Gaming Keyboard
- Detachable Braided USB-C to USB-A Cable
- USB-C Wireless Dongle for 2.4 GHz connection
- Dongle Extension Adapter
- Keycap Puller Tool
- Ergonomic Wrist Rest

The combination of advanced magnetic switching, wireless freedom, and a durable aluminum chassis makes the SteelSeries Apex Pro TKL Wireless (Part Number 64865) an exceptional choice for competitive gamers. Whether you are engaging in fast-paced shooters or strategy games, the ability to customize actuation points and utilize rapid trigger technology provides a distinct advantage that helps you overtake the competition.

FAQ

Is this keyboard compatible with my computer or console?

The SteelSeries Apex Pro TKL Wireless supports Windows, Mac OS X, Xbox, and PlayStation. Note that a USB port is required for connection, and while the software works on both Windows (8.1 or newer) and Mac OS X (10.13 or newer), not all software features are supported on Mac.

How long does the battery last in wireless mode?

The keyboard offers up to 37.5 hours of battery life with default lighting when using the ultra-fast 2.4GHz connection, and up to 45 hours when using Bluetooth 5.0.

Can I customize how my keys respond to my touch?

Yes, the OmniPoint 2.0 Adjustable HyperMagnetic Switches allow you to tune the registration distance of your keystrokes anywhere from 0.1 mm for a feather-light touch to 4.0 mm for a firm press.

What is included in the box with this keyboard?

The package includes the Apex Pro TKL Wireless Gaming Keyboard, a detachable braided USB-C to USB-A cable, a USB-C wireless dongle, an extension adapter, a keycap puller, and a wrist rest.

Does this keyboard support multiple connection methods?

This model features Quantum 2.0 Dual Wireless technology, allowing you to switch between lag-free 2.4GHz gaming or Bluetooth 5.0 connections, as well as use it via the included wired USB-C cable.
