

SWV2532W/10

Philips 100 Series 1.5m 3RCA - 3RCA Composite A/V cable

Product Overview

Philips 100 Series 1.5m 3RCA - 3RCA Composite A/V cable; composite video; stereo audio; nickel-plated connectors; bare copper shielding; flexible PVC jacket; rubber strain relief; colour-coded connectors; 0.10kg

Specifications

About this product

The Philips SWV2532W/10 100 Series 1.5m 3RCA - 3RCA Composite A/V Cable provides a reliable analogue audio and video connection between compatible devices. Featuring colour-coded 3 RCA connectors, nickel-plated contacts, bare copper shielding and a durable PVC jacket, it is ideal for connecting DVD players, VCRs, camcorders, game consoles and televisions. Buy online today for quick delivery in South Africa and enjoy dependable composite audio and video connectivity.

Overview Summary

Philips SWV2532W/10 100 Series 1.5m 3RCA - 3RCA Composite A/V Cable

The Philips SWV2532W/10 is a high quality composite A/V cable designed to deliver reliable analogue audio and video transmission between compatible entertainment devices. Its 1.5m cable length provides flexibility for home entertainment installations while maintaining dependable signal transfer.

Nickel-plated connectors provide consistent contact, while bare copper shielding helps minimise signal loss. Colour-coded RCA connectors simplify installation, and the flexible PVC jacket with rubber strain relief improves durability for everyday use.

Performance tier:Entry-level

Uses:Connecting DVD players, VCRs, camcorders, older game consoles, composite video equipment, televisions, AV receivers

Overview

Depend on this cable to provide you with a reliable video connection between components.

Description

The Philips SWV2532W/10 is designed for dependable analogue audio and composite video connectivity between compatible

Product Specification Sheet

entertainment devices. It features three RCA connectors on each end for left audio, right audio and composite video transmission, making it suitable for many legacy home entertainment systems.

The cable uses nickel-plated connectors to provide reliable electrical contact while bare copper shielding helps reduce signal loss during transmission. Colour-coded connectors make installation straightforward by allowing each connector to be matched quickly with the correct input or output.

A flexible PVC outer jacket protects the internal cable while allowing easy routing behind televisions, entertainment units and AV equipment. Rubber strain relief at each connector helps improve durability by reducing stress where the cable meets the connector.

This cable is well suited for connecting DVD players, VCRs, camcorders, older gaming consoles and other composite video devices to compatible televisions and AV equipment that use standard RCA composite connections.

Features

The Philips SWV2532W/10 is built to provide reliable everyday analogue audio and video performance.

- 3 RCA to 3 RCA composite audio and video cable
- 1.5m cable length for flexible installation
- Nickel-plated connectors for reliable contact
- Bare copper shielding helps protect against signal loss
- Colour-coded RCA connectors for simple installation
- Flexible PVC jacket for durability
- Rubber strain relief improves cable longevity
- Non-slip ergonomic connector grips
- Suitable for composite video and stereo audio connections

Nickel-plated connectors for reliable contact

Nickel-plated connectors establish a clean contact between the cable and connector for a reliable connection.

Bare copper shielding

Bare copper shielding protects against signal loss.

Color coded connectors for instant recognition

Color coded connections make it easy to install your cable into the correct inputs and outputs

Non-slip ergonomic grip for easy use

This non-slip grip makes connecting your components easy and ergonomically comfortable.

Flexible PVC jacket

Flexible PVC jacket provided protection to the delicate core of the cable. It also offers extended durability and ease of installation.

Rubber strain relief

Rubber strain relief provides a secure, yet flexible juncture between the cable and the plug.

What's in the Box

- 1 x Philips SWV2532W/10 100 Series 1.5m 3RCA - 3RCA Composite A/V Cable

Specifications

- Brand: Philips
- Model: SWV2532W/10

ComX Computers

Product Specification Sheet

- Series: 100 Series
- Cable type: Composite A/V cable
- Connector A: 3 x RCA male
- Connector B: 3 x RCA male
- Cable length: 1.5m
- Signal type: Composite video and stereo audio
- Connector finish: Nickel-plated
- Shielding: Bare copper shielding
- Cable jacket: Flexible PVC
- Strain relief: Rubber strain relief
- Connector identification: Colour-coded
- Product weight: 0.10kg

FAQ

What devices are compatible with the Philips SWV2532W/10?

The cable is compatible with equipment that uses standard composite video and stereo RCA audio connections. Typical devices include DVD players, VCRs, older game consoles, camcorders, AV receivers and televisions with composite RCA inputs and outputs.

Does this cable carry high definition video?

No. This cable is designed for standard definition composite video and stereo analogue audio only.

Is this a bidirectional cable?

Yes. The cable can be used between compatible RCA composite input and output devices where the equipment supports the required signal direction.

Are the connectors colour coded?

Yes. The RCA connectors are colour coded to simplify installation and help ensure correct audio and video connections.

What is the cable length?

The Philips SWV2532W/10 has a cable length of 1.5 metres. This provides enough flexibility for most home entertainment installations.
