About this product

Buy the Shuttle PF30 XPC2GO Backpack designed for secure and practical transport of your Shuttle XPC systems in South Africa. Built from durable Nylon Polyester Dobby material with a compact protective design, this black backpack offers reliable storage, portability, and everyday convenience. Shop now and carry your XPC safely wherever you go.

Overview Summary

Shuttle PF30 XPC2GO Backpack is a purpose-built carrying solution designed specifically for Shuttle XPC systems. It provides a secure and structured way to transport compatible devices while maintaining durability and lightweight handling.

Constructed from Nylon Polyester Dobby material, the backpack is designed to resist daily wear and offer dependable protection for your equipment. Its compact form factor makes it suitable for both travel and storage while keeping your device stable during movement.

Ideal for professionals and users who need to move their Shuttle XPC setup between locations, the PF30 backpack combines practicality with protective design to ensure convenience and peace of mind.

Performance tier: Professional protective carry solution

Uses: transporting Shuttle XPC, mobile workstation carry, IT equipment storage, travel protection for desktop systems

Description

The Shuttle PF30 XPC2GO Backpack is engineered to provide safe and efficient transport for Shuttle XPC systems. Its structured internal design helps keep the device stable while moving, reducing the risk of damage during travel or daily commuting.

Made with Nylon Polyester Dobby fabric, the backpack offers a strong outer shell that supports durability and long-term use. The compact dimensions make it easy to carry while still accommodating compatible Shuttle XPC units securely.

This backpack is ideal for IT professionals, technicians, and users who require a portable solution for their Shuttle computing systems without compromising on protection or convenience.

Features

- Custom designed for Shuttle XPC systems compatibility
- Durable Nylon Polyester Dobby construction for improved longevity
- Compact and lightweight design for easy portability
- Structured internal protection to help secure equipment during transport
- Black professional finish suitable for work and travel environments
