Specifications

Overview:

Samsung's LED Series 8000 Smart TV optimises TV perfection. Its minimalistic bevel of just 5 millimeters creates the illusion of a picture that virtually floats on air. When turned on, the LED Series 8000 and its advanced technology delivers a stunning experience. The Full HD Panel and micro-dimmable LED backlights deliver detail, colour and contrast in 2D or 3D like no other before. Samsung Smart TV functionality, Integrated Wi-Fi and the provision to download Apps or to browse the web gives you access to content from a wide array of sources. The LED Series 8000 is truly the pinnacle in home entertainment.

Features:

Movies, shows, apps and more. This Smart TV does it all.

Make the leap to interactive home entertainment with Samsung LED 8000's Smart Hub. It is the simple way of getting more from your TV. You can harness internet through features such as Search All, Your Video and Web Browser. Find TV-related online content and information, while helping you share movies, photos and music. Add to this the possibilities that come with Samsung TV Apps and Social TV, and the LED 8000 is ready entertainment and communication needs.

Smart Hub

Change what you watch and how you watch it with Samsung's Smart Hub. Now you can download various Apps to search for TV content while watching live TV. Stay connected with friends and family, or find movie recommendations and so much more.

Web Browser

Surf the net on your TV. Browser. Optimised for use with your Samsung smart TV, and offering a truly engaging and interactive online experience. Search, shop, connect.

Your Video

Samsung's Your Video provides recommendations for movie clips and TV shows that reflect your individual tastes. Its user ratings and concise synopses help inform your choices.

Search All

Find more TV content. Samsung Search All brings you easy ways to locate shows you want to watch - even while you're viewing live TV - and helps series 8000, 7000 and 6000 users find related content conveniently.

Social TV

Share more with friends and family. Samsung's Social TV feature lets you blog and chat about what you love - through services like Facebook, Twitter, and Google Talk - while still watching live TV.

Skype

Make free Skype-to-Skype video calls to anywhere in the world - just plug in Samsung's Skype camera and you're ready to go.

Seamless design for a seamless viewing experience

As one of the pioneers of LED TV technology, Samsung engineers optimised the design of TV to bring a new meaning in "slim". Featuring a silver metallic bezel that is barely discernable the LED 8000 Samsung Smart TV draws emphasis to the stunning picture on the screen. With reduced physical dimensions to comparable screen sized TV's the LED 8000 will be sure to impress you for years to come.

Discover TV's new dimension

Samsung's 3D technology begins with Samsung's advanced 3D Hyper Real Engine that optimises the video signal for display on screen. To deliver an impactful 3D experience, Samsung's 3D glasses technology are paired to the TV using Bluetooth that ensures your experience is uninterrupted and delivered pristinely in Full High Definition. Further Samsung's Clear Motion Technology produces smooth images to create a comfortable 3D experience.

3D Sound

Immerse yourself in 3D sound. Samsung's Depth Rendering Technology produces spacious 3D sound that will match the 3D Experience.

2D to 3D

This technology lets you convert your 2D content into 3D, so you can watch your content including live TV in 3D.

Micro Dimming

Samsung Micro Dimming produces deep black and pure white for optimum contrast and clarity with reduced halo so you experience even small picture details and perfectly rendered colour.

3D Glasses

Samsung's 3D Active glasses are lightweight and ergonomically designed, with flexible temple hinges and adjustable nose pads, so you can immerse yourself in the action with improved comfort.

Experience enhanced image detail, colour reproduction and control

Enjoy clear more life-like images with Samsung's advanced imaging technology. Samsung's LED backlight system delivers outstanding contrast, pure whites and deep blacks for your viewing pleasure. With the halo effect minimised, you'll enjoy the tiniest picture details in its true form. The HyperReal Engine enhances images and optimises for crystal-clear Full HD images and Wide Colour Enhancer Plus technology make colours more life-like, and reveal tones and hues that will amaze.

Micro Dimming

Samsung Micro Dimming produces deep black and pure white for optimum contrast and clarity with reduced halo so you experience even small picture details and perfectly rendered colour.

Ultra Clear Panel

Experience motion clarity with Samsung's Clear Motion Rate. Clear Motion Rate determines the motion of an image by using three factors: chipset, TV panel, and backlight.

Product Specification Sheet

Wide Colour Enhancer

See true colours. Samsung's Wide Colour Enhancer Plus uses an advanced algorithm to improve image quality - displaying subtle tones and details that will impress.

Full HD 1080p

Samsung's full HD TVs boast high resolution, for textured, natural pictures that will captivate and elevate your viewing experience.

Digital Noise Filter

Watch analog programming clearly with Samsung's Digital Noise Filter. The filter helps to eliminate the digital "noise" that is on your screen.

Clear Motion Rate

Experience motion clarity with Samsung's Clear Motion Rate. Clear Motion Rate determines the motion of an image by using three factors: chipset, TV panel, and backlight.

An amazing home-base of entertainment

Enjoy all your digital content and interactions in on. AllShare lets you connect your TV wirelessly to your DLNA capable digital devices, unlocking the music, movies and photos stored. Samsung's AllShare PC software is also available for download and ensures that your PC content can be searched, streamed and played back on your TV. High Definition Multimedia Interface inputs allow you to directly connect up to four compatible devices, providing you with content to watch and to share. For a theatre-like movie viewing experience, Cinema Black automatically adjusts the letterbox-effect lighting. For an immersive experience Anynet+ concentrates the functions of all your separate remotes into a single remote controller.

AllShare

AllShare wirelessly connects compatible mobile devices through DLNA technology so movies, photos and music can be viewed, listened to and shared on your TV.

HDMI

Multiply your media. Four High Definition Multimedia Interface (HDMI) inputs allow you to stream high-definition digital data from several devices straight to your smart TV, giving you more to enjoy on screen.

Connect Share Movie

ConnectShare Movie allows you to simply plug in your USB memory drive or connect your hard disk drive to view the movies, photos and music stored there.

Anynet

Anynet+ technology enables you to control HDMICEC-compatible digital devices with a single remote control, for a streamlined home-entertainment experience.
