

UF-206008

UF-Tools 2-in-1 40m Laser distance measurer & tape measure

Product Overview

UF-Tools 2-in-1 40m Laser distance measurer & tape measure, 40m Laser measurement range with ± 2 mm accuracy, Integrated cross-line Laser positioning pointer for alignment, Retractable 5m nylon-coated Steel tape Blade with Automatic lock, High-Definition backlit LCD screen for Clear readouts, 800 mAh internal Rechargeable Battery providing up to 8000 measurements per charge, Multiple measuring modes, 180-second Automatic Power shutdown for Battery conservation, Heavy-Duty housing designed for Rugged job site use, Integrated belt Attachment clip for Secure carrying

Specifications

Overview Summary:

Enhance your accuracy and efficiency on any project with the UF-Tools 2-in-1 Laser Distance Measurer & Tape Measure. This rugged, versatile tool combines a precise 40m laser sensor with a reliable retractable steel tape, making it perfect for South African professionals and DIY enthusiasts who need dependable performance at home or on-site.

Don't let inaccurate measurements slow you down. With its high-definition backlit LCD screen and ergonomic design, this device ensures clear readouts in any lighting condition. Secure your tool today by buying now for superior results on every job.

Performance tier: Professional

Uses: Construction, interior design, real estate, home renovations, general DIY projects

Overview:

Elevate your measurement precision with the UF-Tools 2-in-1 Laser Distance Measurer & Tape Measure, part number UF-206008. This rugged device seamlessly blends a high-accuracy laser sensor capable of measuring up to 40 meters with a reliable retractable steel tape for close-up work. Designed for both professional contractors and DIY enthusiasts, the unit offers a durable housing that withstands job site conditions while remaining compact enough for one-handed operation.

Description:

The UF-Tools model UF-206008 is engineered to replace multiple tools with a single, versatile device. It combines the speed of laser technology with the tactile reliability of a manual tape measure. Users benefit from an integrated cross-line laser

pointer for precise alignment, a high-definition backlit LCD screen for clear visibility in low light, and a rechargeable battery that supports up to 8,000 measurements on a single charge. The ergonomic design includes a heavy-duty belt clip and wrist strap, ensuring the tool stays secure during demanding tasks.

Features:

Why Choose This Measuring Tool

Say goodbye to guesswork when planning home renovations or managing construction projects. Whether you are calculating square footage for flooring, determining ceiling heights, or measuring room dimensions for interior design, this device delivers consistent results with a tight accuracy tolerance of plus or minus 2 millimeters. The inclusion of Pythagorean modes allows for indirect height and distance measurements where direct access is impossible.

Beyond simple linear distances, the system supports advanced calculations including area, volume, continuous tracking, and unit conversions between meters, feet, and inches. Memory functions let you add or subtract values to track cumulative totals without manual calculation, while an automatic power shutdown after 180 seconds preserves battery life.

Technical Specifications:

- Laser measurement range: 40m with +/-2mm accuracy
- Manual tape blade: 5m nylon-coated steel with auto-lock
- Battery capacity: 800 mAh internal rechargeable cell providing up to 8,000 measurements
- Display: High-definition backlit LCD screen
- Operating modes: Distance, Area, Volume, Continuous tracking, and two Pythagorean indirect height settings
- Physical dimensions: 85 x 82 x 56 mm
- Total weight: 330 g including accessories

The unit is powered by a long-lasting internal battery that eliminates the need for disposable cells. A built-in belt clip and wrist strap ensure the device remains secure in your hand or on your tool belt during active use.

What's in the box

- 1 x UF-Tools 2-in-1 Laser distance measurer & manual tape measure unit
- 1 x Integrated cross-line laser module zone
- 1 x Heavy-duty built-in belt attachment clip

Specifications	
Product Code	UF-206008
Key specifications	
SKU	UF-206008
Details	
Core hardware	1 x 2-in-1 Laser distance measurer & manual tape measure unit 1 x Integrated cross-line laser module zone 1 x Heavy-duty built-in belt attachment clip
Laser range	40m
Laser accuracy	+/-2 mm

ComX Computers

Product Specification Sheet

Laser features	Cross-line positioning pointer
Manual tape range	5m
Manual tape blade	Nylon-coated steel with automatic locking mechanism
Battery type	800 mAh internal rechargeable cell
Battery performance	Up to 8,000 individual laser measurements per charge
Display screen	High-definition backlit LCD screen
Measuring modes	Distance, Area, Volume, Continuous tracking, and 2 x Pythagorean indirect height modes
Unit selection	Meters, Feet, Inches
System operations	Memory addition/subtraction, reference point selection, and 180-second automatic power shutdown
Physical and environment	
Weight	330 g
Dimensions	85 x 82 x 56 mm

FAQ

What are the maximum measurement distances for this device?

The laser distance sensor can accurately measure up to 40 meters, while the integrated retractable tape measure provides a range of 5 meters for closer work.

How long does the battery last on a single charge?

This unit features an internal rechargeable cell that supports up to 8,000 individual laser measurements per full charge.

Can I measure indirect heights or calculate area and volume?

Yes, the device includes multiple measuring modes such as distance, area, volume, continuous tracking, and two Pythagorean modes for indirect height calculations.

Does this tool work in low-light conditions?

The digital LCD screen is high-definition and backlit to ensure clear readouts even when working in dim environments.

What are the available unit options for measurements?

You can easily switch between Meters, Feet, and Inches depending on your project requirements.
