Acer E241Y 23.8" IPS Full HD 1920x1080 120Hz LED backlit Monitor, HDMI, VGA

Product Overview

Acer E241Y 23.8" IPS Full HD 1920x1080 120Hz LED backlit Monitor, 250 nits brightness, 1000:1 contrast ratio, 5 ms GTG response time, 16:9 Aspect Ratio, 178 degree viewing angle, 75x75 mm VESA mounting, Tilt, 1x HDMI 1.4, 1x VGA, UM.QE1EE.G08

Specifications

Overview Summary:

The Acer E241Y 23.8-inch Full HD IPS monitor is a practical choice for clear everyday viewing, smooth 120Hz performance and reliable productivity. Its slim ZeroFrame design, HDMI and VGA connectivity, and VESA mount support make it well suited for office setups, home workstations and general computing. For buyers in South Africa looking for a dependable monitor with strong value, this is a smart option to buy now and upgrade your workspace.

Enjoy crisp visuals, wide viewing angles and comfortable extended use with Acer VisionCare and tilt adjustment. Whether you need a monitor for remote work, browsing, virtual meetings or media use, the Acer E241Y delivers consistent performance. Shop now and add a trusted Full HD display to your setup today.

Performance tier:Mid-range productivity

Uses:Office work, remote work, business applications, web browsing, virtual meetings, content viewing, dual monitor setups, general home computing

Overview:

Acer E241Y 23.8 Inch Full HD IPS Monitor for Work and Everyday Use

The Acer E241Y is a practical, performance-driven monitor built for users who need consistent image quality and smooth visuals across a range of daily tasks. Its 23.8 inch IPS display delivers clear Full HD resolution, making it suitable for office productivity, remote work, and general browsing. The slim Zero Frame design maximises usable screen space, creating a more immersive viewing area while keeping the setup clean and modern.

With a 120Hz refresh rate and fast 5 ms response time, on-screen motion appears fluid and controlled, reducing visual fatigue during extended sessions. Acer VisionCare technologies contribute to a more comfortable experience, particularly for users spending long hours in front of the screen. The display maintains accurate colours and wide viewing angles, ensuring consistency whether you are working solo or collaborating.

Description:

The Acer E241Y combines a 23.8 inch IPS panel with Full HD resolution and a 120Hz refresh rate to deliver smooth, sharp visuals for both work and entertainment. Its Zero Frame design enhances screen space while maintaining a compact footprint, and the wide 178 degree viewing angles ensure consistent image quality from different positions. With integrated VisionCare technology, tilt adjustment, and VESA mount compatibility, it provides ergonomic flexibility and reduced eye strain. Connectivity via HDMI and VGA supports a range of devices, making it a versatile and cost-effective display solution for modern workspaces.

Features:

Display Performance and Visual Clarity

The IPS panel ensures stable colour reproduction and wide viewing angles, making it suitable for collaborative environments or multi-screen setups. Full HD resolution provides enough detail for spreadsheets, documents, and multimedia content without overloading system resources. The LED backlighting supports uniform brightness, while the 250 nits output is sufficient for typical indoor environments.

The 120Hz refresh rate is a notable advantage at this level, improving motion handling compared to standard displays. This results in smoother scrolling, cleaner transitions, and a generally more responsive feel.

Comfort and Adjustability

Designed for extended use, the monitor includes tilt adjustment from -5 degrees to 15 degrees, allowing users to fine-tune their viewing position. It also supports 75 x 75 mm VESA mounting, enabling wall mounting or integration into ergonomic monitor arms for improved workspace efficiency.

Acer VisionCare helps reduce strain during prolonged sessions, making the display more suitable for continuous workflows such as data analysis, virtual meetings, and content review.

Connectivity and Integration

The monitor includes essential connectivity options for compatibility with both modern and legacy systems:

- 1x HDMI 1.4 for digital video input
- 1x VGA for older devices or secondary connections
- 1x DC power input

This combination allows flexible deployment in office environments where different hardware configurations may be in use.

Key Technical Details

- Screen size: 23.8 inch (60.5 cm)
- Resolution: 1920 x 1080 at 120Hz
- Panel type: IPS technology
- Brightness: 250 cd per m2
- Contrast ratio: 1000 to 1
- Response time: 5 ms GTG
- Aspect ratio: 16:9
- Viewing angles: 178 degrees horizontal and vertical
- Mounting: 75 x 75 mm VESA compatible
- Tilt range: -5 degrees to 15 degrees
- Colour: Black

Ideal Use Cases

This monitor is well suited to a range of environments where reliability and visual comfort are priorities:

- Office productivity and administrative work
- Remote work setups and home offices
- Web browsing and general computing
- Virtual meetings and collaboration
- Light multimedia consumption

The Acer E241Y, part number UM.QE1EE.G08, provides a balanced mix of performance, comfort, and affordability, making it a practical choice for users seeking dependable daily display performance.
