APC Smart-UPS RT 19" Rail Kit

Product Overview

APC Smart-UPS RT 19" Rail Kit for SURT1000XLI & SURT2000XLI

Specifications

About this product

The SURTRK APC Smart-UPS RT 19 Rail Kit is a durable rack mounting solution designed to securely install compatible APC Smart-UPS RT models including SURT1000XLI and SURT2000XLI into standard 19-inch server racks. Buy now to ensure stable, professional UPS installation for critical power backup systems in IT environments and save with a reliable mounting accessory built for long-term infrastructure performance.

Overview Summary

SURTRK APC Smart-UPS RT 19 Rail Kit

The SURTRK rail kit is a mounting accessory engineered for APC Smart-UPS RT systems, specifically compatible with SURT1000XLI and SURT2000XLI models. It enables secure installation into standard 19-inch server racks, making it ideal for structured IT environments, data centers, and business network setups where equipment stability is essential.

Built for durability and ease of installation, the kit includes mounting brackets, screws, and installation hardware. It ensures the UPS is properly supported within a rack cabinet, reducing movement, improving airflow management, and helping maintain organized infrastructure.

Designed for professional deployment, this rail kit supports efficient rack integration and long-term reliability in demanding power backup environments.

Performance tier: Professional infrastructure accessory

Uses: Server rack mounting, UPS installation, data center deployment, network infrastructure setup

Overview

The APC 19 inch Rail Kit is designed for Smart-UPS RT models. It includes installation guide, mounting hardware, rack mounting brackets, and screws.

Description

The SURTRK APC Smart-UPS RT 19 Rail Kit is a purpose-built rack mounting solution designed to integrate APC Smart-UPS RT units into structured server environments. It provides the necessary mechanical support for securely installing UPS units into 19-inch racks, ensuring stable positioning and alignment within IT infrastructure.

This rail kit is commonly used in professional server rooms and data centers where reliable power backup systems must be safely and neatly installed. Its sturdy construction helps reduce installation complexity while improving equipment safety and accessibility for maintenance.

Features

The SURTRK rail kit provides essential mounting support for APC Smart-UPS RT systems, enabling efficient rack integration.

- Compatible with SURT1000XLI and SURT2000XLI UPS models
- Designed for standard 19 inch server rack installations
- Includes mounting brackets and installation hardware
- Improves stability and secure positioning of UPS units
- Supports organized and professional IT infrastructure setups
- Durable metal construction for long term reliability

What's in the Box

- 1 x SURTRK APC Smart-UPS RT 19 Rail Kit
- Mounting brackets
- Installation guide
- Screws and mounting hardware

FAQ

What UPS models are compatible with the SURTRK rail kit?

The SURTRK rail kit is designed for APC Smart-UPS RT models including SURT1000XLI and SURT2000XLI, ensuring a proper fit in standard 19 inch racks.

Is this rail kit required for rack installation?

Yes, it provides secure mechanical support for mounting compatible UPS units into a server rack, improving stability and installation safety.

What is included in the package?

The kit includes mounting brackets, screws, and an installation guide for easy setup.

Can this be used in any 19 inch rack?

Yes, it is designed for standard 19 inch rack systems commonly used in server rooms and data centers.

Is professional installation required?

Basic installation can be done by IT technicians, but professional installation is recommended for critical infrastructure environments.
